The University is committed to affirmative action under law in employment of women, minority group members, individuals with disabilities, and protected veterans. Additionally, in accordance with Yale’s Policy Against Discrimination and Harassment, and as delineated by federal and Connecticut law, Yale does not discriminate in admissions, educational programs, or employment against any individual on account of that individual’s sex; sexual orientation; gender identity or expression; race; color; national or ethnic origin; religion; age; disability; or status as a special disabled veteran, veteran of the Vietnam era, or other covered veteran.

Inquiries concerning these policies may be referred to the Office of Institutional Equity and Access, 203.432.0849; equity@yale.edu. For additional information, please visit https://oiea.yale.edu.

Title IX of the Education Amendments of 1972 protects people from sex discrimination in educational programs and activities at institutions that receive federal financial assistance. Questions regarding Title IX may be referred to the university’s Title IX coordinator, Elizabeth Conklin, at 203.432.6854 or at titleix@yale.edu, or to the U.S. Department of Education, Office for Civil Rights, 8th Floor, Five Post Office Square, Boston MA 02109-3921; tel. 617.289.0111, TDD 800.877.8339, or ocr.boston@ed.gov. For additional information, including information on Yale’s sexual misconduct policies and a list of resources available to Yale community members with concerns about sexual misconduct, please visit https://smr.yale.edu.

In accordance with federal and state law, the University maintains information on security policies and procedures and prepares an annual campus security and fire safety report containing three years’ worth of campus crime statistics and security policy statements, fire safety information, and a description of where students, faculty, and staff should go to report crimes. The fire safety section of the annual report contains information on current fire safety practices and any fires that occurred within on-campus student housing facilities. Upon request to the Yale Police Department at 203.432.4400, the University will provide this information to any applicant for admission, or to prospective students and employees. The report is also posted on Yale’s Public Safety website; please visit http://your.yale.edu/community/public-safety.

In accordance with federal law, the University prepares an annual report on participation rates, financial support, and other information regarding men’s and women’s intercollegiate athletic programs. Upon request to the Director of Athletics, PO Box 208216, New Haven CT 06520-8216, 203.432.1414, the University will provide its annual report to any student or prospective student. The Equity in Athletics Disclosure Act (EADA) report is also available online at http://ope.ed.gov/athletics.

Andrew Wilder, M.A.L.D, Ph.D.
Scott Worden, J.D.
A Message from the Dean

Welcome to the Jackson School of Global Affairs. In April 2019, the Yale Board of Trustees approved our transformation from the Jackson Institute to the Jackson School, Yale’s first professional school in decades.

Jackson was established to help tackle the world’s increasingly complex problems: climate change, war, migration, poverty, and others. Our students learn from faculty drawn from across the university’s professional schools and the graduate school, as well as Senior Fellows — leading practitioners in government, international organizations, the NGO community, and other global affairs fields. We are uniquely integrated with the rest of Yale, with students from around the university taking our classes. Our interdisciplinary and multidimensional approach makes us exceptionally qualified to give students the tools they need to help solve the world’s most pressing problems.

Our students come to Yale having already worked on complicated problems in all corners of the world. They are intellectually curious individuals who come to Jackson ready to define their own path to a career in global leadership and service.

In addition to our degree programs in global affairs, we host a number of initiatives, programs, and centers that enrich the Jackson community with visiting fellows, workshops, public events, and innovative research.

Jackson is a diverse, multilayered community of scholars, practitioners, and students from all over the globe. Here you will make lifelong connections with individuals who are passionate about making a difference in the world.

This bulletin will tell you more about our degree programs, our faculty, our centers, and the overall Jackson experience. I am excited about Jackson’s future as a school and invite you to take advantage of all that we have to offer.

Best,
Jim Levinsohn
Dean, Jackson School of Global Affairs
Charles Goodyear Professor of Global Affairs
History and Mission of the Jackson School of Global Affairs

HISTORY

The Jackson School of Global Affairs was established on July 1, 2022. It is the first professional school to be established at Yale in forty-six years.

The School builds on Yale’s centuries-long tradition of educating leaders. Yale’s graduates include five U.S. presidents; seven U.S. Secretaries of State; the presidents or prime ministers of Mexico, South Korea, and Germany; numerous ambassadors; and many heads of private and non-profit enterprises that contribute to the public good such as Human Rights Watch, Ashoka, Unite for Sight, and the Peace Corps.

Prior to becoming a stand-alone professional school Jackson was known as the Jackson Institute for Global Affairs. The institute was built on what was the International Affairs Council at the MacMillan Center for International and Area Studies in 2009 after a transformational gift from John W. Jackson ’67 and Susan G. Jackson.

The International Affairs Council, a founding member of the Association of Professional Schools in International Affairs (APSIA), was the home of Yale’s Master of Arts in International Relations and the undergraduate major in international studies. The Master of Arts in International Relations became the Master of Arts in Global Affairs in 2013. The undergraduate major in international studies became a stand-alone major in global affairs during the 2011–2012 academic year.

In July 2015 the Jackson Institute separated from the MacMillan Center into an independent organization. In 2019, the Yale Board of Trustees approved plans to expand the institute into a stand-alone professional school. In January 2022, President Salovey announced that the Yale Jackson School of Global Affairs would open in the fall of 2022, and he named Professor James Levinsohn the inaugural dean.

MISSION

The mission of the Jackson School of Global Affairs is to educate leaders in the fields of global affairs and to support world-leading research addressing the most important policy challenges. It seeks to provide students with an interdisciplinary education that gives them the ideas, concepts, and skills to be creative problem solvers.

ACCREDITATION

The Jackson School’s accreditation is encompassed by Yale University’s accreditation by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges).

FACILITIES

Horchow Hall is a four-story stone house located on historic Hillhouse Avenue at the intersection with Sachem Street. Constructed as a single-family home in 1859, it was designed by Sidney Mason Stone in the Renaissance-Revival style. It was the first home
on the street to be painted brown. The house was originally built for Pelitiah Perit, a merchant. A third floor was added in the 1860s. A large rear wing was added by Henry L. Hotchkiss, who bought the house in 1888. The house passed to his son H. Stuart Hotchkiss who sold it to Yale in the 1930s. The house was an annex for the Peabody Museum (1937–60) and the Bingham Oceanographic Laboratory (1937–59). In the 1960s, it became a residence for Yale officials until 1984, when it was renovated and renamed Horchow Hall. From 1984 to 2014 it was one of the buildings of Yale’s School of Management.

The Jackson Institute for Global Affairs moved into the building in the summer of 2014. The 20,000 square foot building houses the Jackson School’s administrative and faculty offices. The building also contains a student and World Fellows lounge. Two rooms, the GM room and the seminar room, provide space for classes, meetings, and events.
Admissions Requirements

M.P.P. & M.A.S. PROGRAMS

The Jackson School of Global Affairs offers professional degrees for students who are pursuing careers in government, public affairs, and private organizations addressing global issues. Applicants should tailor their personal statement and other application components around their academic and professional background and showcase how these shape their intended focus area at the Jackson School as well as their future professional plans in the global arena.

Students apply through the Jackson School of Global Affairs website, https://jackson.yale.edu/admissions. Each year, the online application is available from mid-August through January 2.

Qualifications

MASTER IN PUBLIC AFFAIRS IN GLOBAL AFFAIRS (M.P.P.)

Full-time work, volunteer, or internship experience is strongly preferred. Prior experience in the fields most relevant to global affairs or international study—history, political science, and economics—is a valuable asset in pursuing an M.P.P. in Global Affairs.

It is strongly recommended that entering students have taken introductory courses in microeconomics and macroeconomics prior to matriculating. These courses may be taken at any college or university as part of an undergraduate degree or separate from it.

MASTER OF ADVANCED STUDY IN GLOBAL AFFAIRS (M.A.S.)

Applicants must have a minimum of seven years of professional experience and should show superior professional qualifications and evidence of ability to succeed and thrive in a rigorous multidisciplinary academic program. Students in the Master of Advanced Study in Global Affairs may not be considered for, or transferred into, the Jackson School's two-year M.P.P. program.

B.A.-B.S./M.P.P.

Current Yale College students may apply to the B.A.–B.S./M.P.P. program in the spring term of their junior year. Applicants must complete an application form and submit transcripts from all undergraduate institutions attended, two letters of recommendation (at least one from an instructor in a Yale course), one personal statement, and documentation of approval by the dean of the student's residential college. All other information needed to apply is available on Jackson School's application portal at https://apply.jackson.yale.edu/apply.

To fulfill degree requirements for the five-year program, admitted students must complete 36 credits for Yale College, 32 of which must be non-professional school courses. Students must also complete 12 graduate level credits for the M.P.P. degree. Students must also fulfill all of the requirements for the M.P.P. degree, including the core curriculum (as part of the 12 required credits), language requirement, leadership and ethics workshop, and an approved summer internship or project between their fourth and fifth years.
Further information about the program may be viewed on the Jackson School of Global Affairs website. Questions about admissions should be directed to the Assistant Dean for Admissions, Asha Rangappa, asha.rangappa@yale.edu.

Joint Degree Programs
Increasingly, students pursuing global careers seek to integrate their skills in global affairs with a professional specialization that is more robust than what is possible in the two-year M.P.P. program.

To enhance the educational opportunity of its graduate students, the Jackson School collaborates with four of Yale’s professional schools and has developed joint degree programs that fulfill the requirements of each school. A joint degree is an integrated education program that is designed to achieve a combination of two programs in a way that is complementary to both while protecting the integrity of each.

Under the auspices of the joint degree, students earn an M.P.P. in Global Affairs from Jackson and the relevant degree (M.B.A., M.F., M.E.M., M.E.Sc., M.F.S., M.P.H., or J.D.) from the other professional school. The two degrees are conferred only after the requirements of both are met.

As a joint degree candidate, a student can earn two degrees in two terms fewer than if the degrees were pursued separately. With the exception of the M.P.P./J.D. program, this is three years. Candidates are expected to spend the first year at the Jackson School of Global Affairs and one or two terms of the second year at the partner school. During the final year, students register with each program for one term, although they may take courses from both programs either term.

Required Application Materials
The Jackson School M.P.P. and M.A.S. applications along with a detailed description of application procedures, guidelines, requirements, deadlines, and all other information needed to apply are available on Jackson School’s application portal at https://apply.jackson.yale.edu/apply.

An application packet consists of the following:
- A personal statement
- Three letters of recommendation
- CV
- Official transcripts and, if applicable, translations of the same are required from admitted applicants. Transcripts from all prior institutions attended should be submitted electronically through the Jackson School Application. Official transcripts will be requested only upon admission into the program.

In reviewing applications, the committee looks for evidence of excellent academic aptitude and strength in the subjects that we offer, e.g., economics, politics, etc. For more information, please contact our Admissions Office.

International Transcript Credential Evaluation
Although not required for admission, applicants completing their undergraduate and/or graduate degree(s) outside of the United States or Canada are encouraged to submit
a transcript evaluation from World Education Services (www.wes.org), Educational Credential Evaluators (www.ece.org) or similar. The evaluation should be a course-by-course report of all transcripts and diplomas (undergraduate and graduate), must include U.S. equivalent GPA on a 4.0 scale, and must include a certification of U.S. bachelor’s degree equivalency. Applicants are responsible for any fees associated with these evaluations. Those who accept our offer of admission and decide to matriculate at the Jackson School of Global Affairs will need to have their International Transcript Credential Evaluation sent directly to jackson.registrar@yale.edu to fulfill the official transcript requirement for enrollment.

INTERNATIONAL CREDENTIAL EVALUATION FROM INSTITUTIONS IN PEOPLE’S REPUBLIC OF CHINA

Transcripts and degree certificates are required, and each must be verified by the appropriate agency. Transcripts must be verified by the China Higher Education Student Information and Career Center (CHESICC); degree certificates must be verified by the China Academic Degree and Graduate information Center (CDGDC). All verification reports and any academic records should be issued in the English language.

To apply for CDGDC verification visit www.chinadegrees.cn/cn.

REQUIRED EXAMINATIONS

All M.P.P. applicants must take the GRE General Test and have official scores released to 3388. It is recommended that you take the GRE no later than mid-December. GRE scores are optional for M.A.S. applicants.

Students whose native language is not English and who did not earn their undergraduate degree at a university where English is the language of instruction must also take the TOEFL or IELTS exam. The minimum score required for the TOEFL is 102 on the internet-based exam (iBT) or 610 on the paper-based exam (PBT). A score of 7.5–8 on the IELTS is roughly equivalent to the required minimum.

APPLICATION FEE WAIVER

To encourage early applications, the Jackson School of Global Affairs waives the $75 application fee for all M.P.P. and M.A.S. program applications received by December 1. A form is not required to receive the waiver.

Applicants may still apply until our deadline of January 2, but the fee will not be automatically waived for applications submitted after 11:59 pm EST on December 1. No preference will be given to early applications.

DEFERRING ADMISSION

The Jackson School will consider deferral requests only in cases of extreme hardship or illness, military deployment, or inability to travel to the U.S. due to visa restrictions or complications. Requests are considered on a case-by-case basis and should be addressed to Assistant Dean Asha Rangappa.
VISITING CAMPUS

Prospective students are welcome to visit the program or to speak with Jackson staff. We hold information sessions several times in the fall of each year. Please visit our admissions events page, https://jackson.yale.edu/jackson-events, for a list of upcoming events.

Webinars

The School hosts online chats for prospective students during the fall admissions season and over the summer. The webinars provide an overview of the admissions process and a Q&A session with admissions staff. Visit our admissions events page for a list of upcoming sessions. You can also view past webinars on our archive page.

Regional Events

Admissions staff and alumni volunteers from the Jackson School of Global Affairs participate in several recruitment events for prospective graduate students around the globe. Visit our admissions events page for upcoming events.

Spring Visit for Admitted Students

In the spring of each year, applicants who are offered admission to our graduate program are invited to the Admitted Students Program.

WORLD FELLOWS

The Maurice R. Greenberg World Fellows Program is a non-degree leadership development program based in the International Leadership Center. Accepted applicants are appointed as Postgraduate Fellows during their time at Yale.

Applicants should be between five and twenty-five years into their professional careers, with demonstrated, significant accomplishments at a regional, national, or international level. Applicants must be citizens of a country other than the United States. While applicants who hold dual citizenship with the United States are eligible, strong preference is given to candidates whose work is focused outside the United States. Applicants must be fluent in English.

Applicants must submit an online application including a personal statement and three letters of recommendation. The application deadline typically falls during the first week of December for the following year’s program. Applications are reviewed by a selection committee and decisions are typically released in April. To learn more please visit https://worldfellows.yale.edu. Questions can be directed to world.fellows@yale.edu.
Degree Programs

MASTER IN PUBLIC POLICY IN GLOBAL AFFAIRS
(M.P.P.)

The Jackson School’s Master in Public Policy in Global Affairs prepares students to impact the global community through an academically rigorous and flexible interdisciplinary program.

Jackson continues the University’s tradition of attracting creative, intellectually curious individuals who come to Yale ready to define their own path to a career in global leadership and service.

The Jackson School’s M.P.P. occupies a unique place among international affairs graduate programs. The four-course interdisciplinary core curriculum provides students with a shared intellectual foundation focused on acquisition of the ideas, ways of thinking, and skills needed for leadership in global affairs. The small core both prepares students to identify and investigate solutions to the global issues they are most passionate about and gives students the unusual flexibility to design an individualized course of study around those issues by taking advantage of the extraordinary breadth of courses and resources at Jackson and across the University.

Jackson’s academic requirements are designed to prepare leaders for solving the most pressing problems in global affairs. This means exposing students to foundational ideas in economics, history, and political science as well as building skill as analysts, communicators, and leaders. We do this through the small core of four courses, an integrated professional writing program, a leadership and ethics training workshop, and a summer internship/project requirement.

M.P.P. Curriculum

The formal M.P.P. requirements are 16 credits, demonstrated proficiency in a modern language, and completion of a summer internship or project between their first and second years in the program. The 16 credits must include the four required core courses listed below (each course is worth one credit). Students must also maintain a grade average of High Pass with at least two Honors grades. All students must complete Jackson’s leadership and ethics training workshop, which will take place in August the week prior to the beginning of their second year.

In addition to the four core courses, leadership and ethics training workshop, summer internship, and language requirement, M.P.P. students enroll in courses from throughout Yale’s Graduate and Professional Schools to build their individualized program of study.

Each term, the Jackson School provides its M.P.P. students with a matrix of interesting and relevant courses from across the University. The list serves as a guide for students, but students are not limited to choosing courses from the list in building the curriculum that best matches their interests and goals. Students also meet with the assistant dean for graduate education and faculty to design their individual curriculum.

To review past matrices, visit https://jackson.yale.edu/academics/mpp/courses-and-curriculum.

*First-year students will be required to take GLBL 5005 in the fall, prior to enrolling in GLBL 5010 in the spring. During orientation, students may sit for a diagnostic economics exam to place out of the GLBL 5005 requirement.

†See Exemption from Core Courses in the chapter Academic Policies

LANGUAGE REQUIREMENT

Native English speakers are required to leave Yale University with the equivalent of foreign language proficiency at the L4 level. To fulfill this requirement, there are three options:

1. provide a transcript with a 3rd year language course listed during application,
2. prior to arriving at Yale (July–August) take a placement test online, place into L3 language, and complete two terms of a second-year language course (L3 and L4) at Yale, or
3. take a language proficiency exam at Yale and place into L5 (advanced level) thus satisfying the language requirement.

More information about placements can be found at https://cls.yale.edu/students/placement-testing

Note that students can choose to earn up to 4 credits (or two years) of language toward a Jackson degree if they would like to continue language study while joint-degree candidates, can earn up to two credits toward the Jackson degree requirements.

Students who have never studied a modern language (other than English) may elect to enroll in the accelerated language course at Middlebury College in the summer preceding their arrival at Yale. Jackson has established a streamlined application process with the Middlebury College Language School, and will fully fund the course, including tuition, room and board. For exigent academic reasons, the assistant dean for graduate education may exceptionally authorize other students to qualify for this funding opportunity.

Foundational Courses

Several courses at the Jackson School of Global Affairs address the development of skill-sets that are applicable across all disciplines and topics within the public policy realm. These courses, deemed “foundational,” currently include writing (GLBL 5000), argumentation (GLBL 5001), communication (GLBL 5002), and negotiation (GLBL 5015). They are open to all graduate students in the Jackson School, are worth ½ credit each and are graded as SAT/UNSAT. Note that two such courses may be taken to provide, cumulatively, a full credit towards the degree requirements, but that doing so will (collectively) count as the one permitted course to be taken outside of the normal graduate grading mode*. Students are thus encouraged to take foundational courses outside of the sixteen courses otherwise required for the M.P.P. degree.

*See policy on Satisfactory/Unsatisfactory Grades under the Academic Policies section.
**Professional Writing Program**

The ability to communicate effectively is central to becoming an effective leader and problem solver. The Writing Program has two components. First, each of the core curriculum courses GLBL 5000 and GLBL 5001 — in addition to their substantive topics — is designed to enhance students’ writing skills across a variety of professional contexts. These writing components have been designed by the primary instructors in collaboration to ensure a coherent and holistic professional writing program across the core courses. Second, all M.P.P. students will have access to the director of the Writing Program, who will be available to provide specific and detailed feedback on all student writing. Through the core writing program, students will develop the professional writing and communication skills necessary to advance their careers as leaders in global affairs.

**Summer Experience**

M.P.P. students further their academic and professional goals by engaging in an immersive summer experience. Taking place during the summer between the first and second year, the experience gives students the opportunity to intern or conduct research.

**Leadership and Ethics Workshop**

Core to the mission of the Jackson School is to prepare students to be responsible, thoughtful, and ethical leaders in global affairs. It is important that, as a part of their M.P.P. training and education, Jackson students are exposed to and understand their responsibilities and the professional ethics associated with a career in global affairs.

The week-long Leadership and Ethics Workshop is an experiential program designed to give Jackson M.P.P. students the tools and frameworks to think ethically about difficult choices, balance competing interests in global public policy, and to teach students how to integrate an ethical approach and moral reasoning into their leadership and management. Central to learning about methods and frameworks of leadership and ethics in a public policy setting is also an understanding of how to lead in a diverse world — across all dimensions of diversity — and how to lead communities around the world that are diverse. Integrated throughout this workshop will be practical engagement with issues of diversity, equity, and inclusion.

In a small, tight-knit program, the workshop also serves as a unique opportunity to bring the cohort together and build community in a concentrated and meaningful experience during the summer before their second year in the program.

**Directed Reading**

Sometimes a student may request that the assistant dean for graduate education approve a Directed Reading conducted by a faculty member (GLBL 9800) or a Senior Fellow (GLBL 8000). Usually limited to one per term, these courses may involve reading the literature on a topic, attending a lecture or seminar series, and writing a substantial research paper. It is your responsibility to make all of the arrangements before the term begins. To formally pursue a directed reading, the following conditions must be met:
1. The student must submit a request to complete a Directed Study before the enrollment period for that term ends (see academic calendar for end of add/drop period).
2. The material of the proposed course must be appropriate to the qualifications of the student.
3. The student must secure not only the instructor’s approval of the work to be covered in the course, but also the approval of the assistant dean for graduate education.
4. The student must provide a syllabus draft for review by the instructor and the assistant dean for graduate education.
5. There must not be an existing graduate or undergraduate course to which the student has access in which the work proposed may be accomplished.
6. The instructor must meet with the student regularly, normally between eight to ten hours per term.
7. The student must produce a final paper at the end of the term.

The Jackson School has established limits on the number of directed readings that a student may take in any term (one) and, cumulatively, before the end of their second year in the M.P.P. program (four).

A student must petition the Committee on Academic Progress for permission to enroll in more than two such course credits in any one term. In the petition the student must give sound academic reasons for exceeding these limits and provide evidence that the additional work in a directed reading will not be done at the expense of the breadth and depth of study being pursued in regular courses at Jackson and elsewhere at the University.

Thesis

Students also have the option of writing a year-long two credit thesis, GLBL 9990 and GLBL 9991, under the supervision of a Jackson School of Global Affairs professor or senior lecturer.

The thesis is an optional research project that is completed in the final academic year of the M.P.P. degree. It is intended for students who wish to make a major policy-oriented research project the culmination of their educational experience in the program. M.P.P. theses involve independently performed research by the student under the supervision of a faculty adviser. Students work with faculty advisers in designing their project and in writing the thesis.

The final thesis is graded by the thesis adviser. No final defense or presentation is required. See the Appendix for additional details and timeline.

Certificate in Program Evaluation

Jackson offers the opportunity for M.P.P. students to earn a Certificate in Program Evaluation upon completion of six methods courses approved in advance by the assistant dean for graduate studies. The six courses may include GLBL 5020, Applied Methods of Analysis, or a substitute course that satisfies the core methods requirement. One of the six courses must be an advanced course in causal inference at least at the level of MGT 510 Data Analysis and Causal Inference or higher (e.g., PLSC 508 or ECON 559).
Other elective courses may include GLBL 5070, GLBL 5050, or GLBL 7250. Please contact the assistant dean for graduate education for more information about the certificate and to discuss your plans.

MASTER OF ADVANCED STUDY (M.A.S.)

The Master of Advanced Study (M.A.S.) in Global Affairs is a one-year program for mid-career professionals.

Created in 2013, the program is small by design, with only a few admitted students each year. The M.A.S. is aimed at professionals with extensive experience in a field of global affairs such as, but not limited to, international security, diplomacy, and development.

M.A.S. Curriculum

The program of study is customized to a student’s individual academic and professional goals. Students take eight courses in one year of full-time study. Part time study is not permitted. Courses are chosen in consultation with the assistant dean for graduate education before the start of each term. Students select courses from the Jackson School’s regular offerings as well as courses from throughout the Graduate School and professional schools. M.A.S. candidates have access to all of the School’s services and are welcome to work with Jackson-affiliated faculty and Senior Fellows to design their program of study.

JOINT DEGREE PROGRAMS WITH OTHER YALE SCHOOLS

The Jackson School of Global Affairs offers the following joint-degree programs in collaboration with other Yale professional schools:

Law J.D./M.P.P.
Management M.B.A./M.P.P.
Public Health M.P.H./M.P.P.

Joint-degree candidates must apply to and be accepted by each school. Students should contact admissions offices at both schools to learn about admission requirements and deadlines. Joint-degree students must fulfill degree requirements for both programs. M.P.P. students are typically required to complete 12 course credits toward the M.P.P. degree. Advisers from the respective schools will assist students with mapping curriculum. For specific degree requirement information, students should contact the Jackson School of Global Affairs registrar at jackson.registrar@yale.edu
YALE COLLEGE PROGRAMS

The Global Affairs Major

The Global Affairs major is designed to give students the social science research tools to solve today’s most pressing global challenges. It is a truly interdisciplinary program with courses in nearly all departments at Yale. The major includes about eighty students per class selected by competitive admissions.

In the fall of their senior year, global affairs majors complete the Capstone Course, a unique public policy project on behalf of a real client, supervised by a faculty member. Students often travel to the client’s location.

Global Health Studies MAP

The Global Health Studies Multidisciplinary Academic Program (GHS MAP) offers students at Yale College the opportunity to engage critically and analytically in global health from multiple disciplinary approaches and perspectives. The GHS MAP supports students in developing and balancing an appreciation for biomedical and technical issues related to diseases and their treatment and prevention, with an understanding of the historical, social, economic, and political concerns that are implicated in how health is determined and experienced in the twenty-first century.

The program also exposes students to relevant research methodologies to develop their understanding of how knowledge in global health is constructed and how these approaches could inform their academic pursuits and future careers. For more information, visit https://jackson.yale.edu/academics/global-health-studies.

Undergraduate Summer Fellowships

Many Jackson undergraduates spend their summers abroad. The School provides fellowships for student projects including internships and independent research projects related to international affairs. For more information, visit https://jackson.yale.edu/academics/the-global-affairs-major/summer-experience.

Five-Year B.A.-B.S./M.P.P. Program

The Five-year B.A.-B.S./M.P.P. gives Yale College students interested in the field of global affairs the opportunity to earn a bachelor’s degree from Yale College and an M.P.P. degree from the Jackson School of Global Affairs in a five-year joint program.

A total of 12 course credits are required for the M.P.P. degree. Several course requirements can be taken while a senior at Yale College, with the remaining requirements satisfied during the one-year enrollment at Jackson School of Global Affairs.

In their four years of Yale College enrollment, students complete a standard Yale College major, which consists of at least 36 course credits, 32 of which must be Yale College undergraduate approved courses credits. The remaining four Yale College courses may be counted as electives toward the M.P.P. degree requirements. These electives must be on the Jackson School matrix of approved courses.
Students in the B.A.-B.S./M.P.P. track must complete four core courses (as part of the 12 required credits), the language requirement, and the leadership and ethics workshop as well as an approved summer internship or project between their fourth and fifth years.

*First-year students will be required to take GLBL 5005 in the fall, prior to enrolling in GLBL 5010 in the spring. During orientation, students may sit for a diagnostic economics exam to place out of the GLBL 5005 requirement.

†See Exemption from Core Courses in the chapter Academic Policies
Academic Policies

FACULTY ADVISERS

The primary adviser for all students is the assistant dean for graduate education. Each student is also assigned a secondary faculty adviser upon entering the two-year M.P.P. program and the one-year M.A.S. program. It is the responsibility of the student and the primary adviser to work together to select courses and monitor academic progress in collaboration with the Jackson School registrar.

The role of the faculty adviser is to help develop career plans. For a variety of reasons, students may wish to change their faculty adviser. They may request a change by writing to jackson.registrar@yale.edu.

COURSE REGISTRATION

Students will be given the opportunity to register for courses and confer with their academic adviser about their schedules before classes start each term. All students must complete the online registration process by the deadline listed on the academic calendar to avoid a $50 late fee. Beginning in spring 2023, there will also be an add/drop period at the start of the term. At the end of the add/drop period, all registrations are considered final.

No student may attend any class unless officially registered in the course. No credit will be given for work done in any course for which a student is not officially registered, even if the student entered the course with the approval of the instructor. Students who wish to register for courses that are offered on both the graduate and undergraduate levels must register with the graduate-level course number in order to receive credit toward their degrees. In rare instances, a student may be granted permission to register for an undergraduate course that will count toward the fulfillment of course requirements for the student’s graduate degree. In such cases, the student must file an approved Jackson School Graduate Credit Request form with the Jackson Registrar’s Office by the end of the registration period. Jackson students taking a course at the School of Management or the Law School must also obtain written permission from the respective school’s registrar to be officially enrolled. Permission must be obtained within two weeks of the close of registration at the Jackson School of Global Affairs.

AUDITING COURSES

An auditor is a student who attends a class to acquire knowledge but not to earn credits or a grade. Audited courses do not count toward the completion of degree requirements, enrollment certification, financial aid eligibility, or loan deferment purposes. Auditors may change their status in a course according to the course change deadlines on the academic calendar. Auditors must attend classes regularly, complete assigned reading, and participate in discussions, but they are excused from examinations and other assignments. If this requirement is not met, the Jackson School registrar may, solely upon notice from the instructor of insufficient attendance, delete the course from the student’s record. For a student who elects to audit a course, the letters “AUD” are entered on the
transcript in the grade column. Auditors are admitted to a course on a space-available basis and with the approval of the instructor.

**COURSE CHANGES**

Once the online course selection process has closed for a given term, all subsequent changes must be made using the Jackson School add/drop form and approved by the assistant dean for graduate education and the Jackson School registrar.

The dates for changing enrollment in a course from Credit to Audit or Audit to Credit and for withdrawing from a course are listed in the Academic Calendar. If a student officially withdraws from a course by the stated deadline, the course will be removed from the student’s transcript. If a student ceases to participate in a course without officially withdrawing from that course by the stated deadline, it is at the instructor’s discretion to assign an appropriate qualitative grade or a grade of Incomplete.

**COURSE WITHDRAWAL**

Students may withdraw from a course with the approval of their primary adviser. The course add/drop form is available on the School’s website or Yale Hub. Students may withdraw until about halfway through each term without the course appearing on the transcript; exact withdrawal deadlines may be referenced on the academic calendar for each year. From those dates at the halfway point in the term until the last day of classes, a student may still withdraw from a course; however, the course will appear on the transcript with a letter grade of W. Please note that students enrolled in an eight-week (half-term) course can withdraw from the course no later than four weeks into the class sessions without the course appearing on the transcript.

M.P.P. students are not allowed to withdraw from the following core courses: GLBL 5010, GLBL 5020, GLBL 5030, GLBL 5040

**EXEMPTION FROM CORE COURSES**

Students who have previously mastered the material being presented in the required GLBL 5020 course can request a course exemption directly from the course instructor. The request for a course exemption indicates that a student is capable of excelling in all assessments in the selected course. Mastery of course content can be demonstrated by (1) excelling in a graduate-level course with equivalent content within the past five years or (2) significant life experience related to the course content. Students approved for an exemption from GLBL 5020 must take a higher level course approved by the instructor. The instructor must sign the electronic core course exemption form and indicate which approved higher level elective (course number and name) was approved in lieu of GLBL 5020.

Course exemption forms must be submitted to the registrar each term by the stated deadline. Exempt courses will be listed on the transcript with a grade of CRW (credit waived) after the term has ended. Exempt courses cannot be used to satisfy the course unit requirement for the M.P.P. degree.
The core GLBL 5010, GLBL 5030 or GLBL 5040 courses do not qualify for exemption. The unique content of these courses provides students with several of the M.P.P. core curriculum competencies and foundational knowledge topics.

**GRADES**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>H</td>
<td>Honors</td>
</tr>
<tr>
<td>HP</td>
<td>High Pass</td>
</tr>
<tr>
<td>P</td>
<td>Pass</td>
</tr>
<tr>
<td>F</td>
<td>Fail</td>
</tr>
<tr>
<td>TI</td>
<td>Temporary Incomplete</td>
</tr>
<tr>
<td>YR</td>
<td>Year-long Course*</td>
</tr>
<tr>
<td>SAT/UNSAT</td>
<td>Satisfactory/Unsatisfactory</td>
</tr>
<tr>
<td>AUD</td>
<td>Audit</td>
</tr>
<tr>
<td>CRW</td>
<td>Credit Waiver</td>
</tr>
</tbody>
</table>

* A mark of YR is assigned as a temporary grade for the first term of a full-year course and will be converted to a standard grade once both terms are completed.

The Jackson School does not calculate grade-point averages nor does it assign numerical or letter equivalents to Graduate School grades. Grades assigned according to grading scales other than those described above will be returned to the instructor for conversion.

The academic calendar indicates the dates on which grades are due for the current year. Instructors have the responsibility for assigning dates for submitting course work in order to meet grade deadlines. If a student and instructor have agreed that an extension is appropriate, the student must submit to the Jackson Registrar’s Office a request for the Temporary Incomplete (TI) with the intended completion date, signed by the instructor and the assistant dean for graduate education. Only one TI in a term is permitted. Temporary Incompletes received in an academic year must be converted to final grades normally before the start of the following academic year. If a grade is not received by the registrar by this date, the TI will be converted to a Fail (F) on the student’s record, as selected by the instructor on the TI form.

In certain extraordinary circumstances, such as serious illness or a family emergency, and on the recommendation of the assistant dean for graduate education, a student may be granted an additional extension. A written request for such an extension must be made by the assistant dean for student affairs on the student’s behalf within two weeks of the grade submission deadline. The request should indicate the special circumstances and suggest a date by which the student will complete the work. If the request is approved, the assistant dean for graduate education will inform the student and instructor. If the grade is submitted to the registrar by the new deadline approved by the assistant dean for graduate education, it will replace the TI. If a grade is not received by the registrar by this date, the Temporary Incomplete (TI) will be converted to a Fail (F) on the student’s record, as selected by the instructor on the TI form.

“Provisional” or “temporary” grades (as opposed to Incompletes) are not permitted. Once submitted to the Registrar’s Office, a grade may be changed only in cases of arithmetical or clerical error on the part of the instructor. If the registrar has not received
a given grade from an instructor within two weeks of the stated deadline for the submission of grades, the student will be assigned a grade of Incomplete for that course.

**Satisfactory/Unsatisfactory Grade Policy**

Students pursuing an M.P.P. or an M.A.S. may elect to have a one-credit course or two 0.5-credit courses be graded on SAT/UNSAT basis and to count toward their degree requirement. Students may elect to use courses currently offered as SAT/UNSAT to count toward their degree requirement, or they may submit a request to convert a graded course to a SAT/UNSAT course. The form to convert a graded course to SAT/UNSAT can be found on the School website and must be submitted to the registrar on or before the last day of classes. Students should consult the academic calendar and submit the form as early as possible. Late requests will not be processed.

**TUTORIAL SUPPORT**

Students experiencing academic difficulty should seek prompt assistance. Students should first discuss the problem with the course instructor, who can suggest that a student’s academic difficulties be addressed by a course’s teaching assistant (TA). If, after working with the TA, the student continues to experience difficulty in any of the core M.P.P. courses, the course instructor can recommend that specific tutorial assistance be provided to the student. The instructor should contact the assistant dean for graduate education to arrange tutorial assistance. The assistant dean for graduate education has access to each advisee’s transcript both as an early warning of academic difficulty and as an aid to planning course load and selection.

**THE COMMITTEE ON ACADEMIC PROGRESS**

The Committee on Academic Progress reviews the academic performance of students to determine suitability for continued advancement in the curriculum and for graduation. This review includes decisions about graduation, leaves of absence, special study, remediation, academic probation, breach, suspension, and dismissal.

The Academic Progress Committee is a standing committee appointed by the dean and chaired by the deputy dean. Additional members include the assistant dean for graduate education, the assistant dean for student affairs, and the associate director of academic services and registrar.

**ACADEMIC STANDARDS**

Students in the M.P.P. program must pass all core requirements. Any student who fails a required course must retake it and pass it. The Committee on Academic Progress will review the academic performance of a student whose record in any term shows significant decline or if there is a reason for concern about the overall quality of a student’s work.

**Academic Probation**

The Committee on Academic Progress will place students whose academic work is unsatisfactory on academic probation. The committee will consider the personal situation of the student, but a failing grade in any course will normally result in academic
probation. Students who receive failing grades in two or more courses during a term, or who receive a second failing grade after being placed on academic probation, will be withdrawn from the M.P.P. program and will be required to reapply to the program if they wish to be considered for readmission. Academic dismissal will be recorded on the student’s transcript.

Satisfactory Academic Progress and Program Completion

Federal regulations require institutions to monitor each student’s progress toward earning a degree within the maximum time frame permitted for the student’s degree or course of study. Failure to maintain Satisfactory Academic Progress (SAP) jeopardizes a student’s eligibility to receive University or federal financial aid.

All required course work for the M.P.P. program must be completed within five years of the date of matriculation. If the degree program has not been completed within five years, the student may request an extension from the Committee on Academic Progress. Extensions will be granted only in rare circumstances, and only for a period of one year for the two-year regular M.P.P. program, and only for a period of one term for the one-year M.A.S. program.

In addition, if a student withdraws from courses, resulting in the pursuit of fewer than 4 credits in a single term, the student’s total estimated costs and eligibility for financial aid will be recalculated.

Other Changes and Appeals in Educational Program

Other significant changes in a student’s educational program should be discussed with the student’s faculty adviser and requested in writing from the Committee on Academic Progress. Appeals resulting from decisions made by the Committee on Academic Progress must be addressed to the dean of the Jackson School of Global Affairs, with the description of the basis for appeal. Appeals are heard by the Board of Permanent Officers, whose decision is final.

Academic Integrity Standards

The Yale Jackson School of Global Affairs is an academic community dedicated to the advancement of learning. Its members freely associate themselves with the University and in doing so affirm their commitment to a philosophy of tolerance and respect for all members of the community. They pledge to help sustain the intellectual integrity of the University and to uphold its standards of honesty, free expression, and inquiry. They are expected to abide by the regulations of the School and University, including these Jackson School Personal Conduct and Academic Integrity Standards. They are also expected to obey local, state, and federal laws, and violations of these may be cause for discipline by the Jackson School.

The Jackson School prohibits academic dishonesty, a term that encompasses making any claim within or about your research or scholarship that is untrue. The following are some forms of academic dishonesty:

1. Plagiarism, that is, the failure to acknowledge ideas, research, or language taken from others, whether intentional or unintentional. The Jackson School requires citations whenever students either directly quote or indirectly draw upon and benefit from the
work or scholarship of others. This requirement applies equally to all academic work by students, including a paper or an examination for a course, a presentation in class or at a conference, a prospectus or dissertation, or a manuscript for publication.

2. The unauthorized collaboration with others on graded course work (including problem sets, lab reports, take-home examination questions, and papers) without expressed permission from the instructor.

3. Cheating on examinations, problem sets, or any other form of assessment.

4. The falsification, fabrication, or misuse of data.

5. Submitting work from one course for a grade or credit in another, without first obtaining expressed written permission from both course instructors.

FALL 2022

GLBL 5000, Professional Public Policy Writing While policy writing draws upon principles familiar to academic writing, it has its own conventions, which are rooted in the needs and practices of policy professionals. In this course, students practice writing in various policy modes and for various audiences. In a series of assignments, students carry out every step of the policy analysis process, from defining, framing, and analyzing the problem to identifying and evaluating possible solutions, to building a case for recommendations. Students also learn principles for editing their writing for clarity and concision and gain extensive experience applying those principles to written work. In addition to reading and critiquing the writing of their peers, students also study a selection of texts intended to enhance understanding of the writing and editing process. Assignments include a backgrounder/stakeholder analysis, options analysis, and op-ed. 0.5 credits, SAT/UNSAT. David Morse

GLBL 5005, Fundamentals of Economics for Global Affairs This course covers key economic theories and models used for the analysis of micro- and macroeconomic policy issues. We spend half the course covering microeconomics topics such consumer and producer choices, effects of market intervention, market competition, and issues with public goods. In the second half, we move to the larger (macro) economic picture and discuss topics such as measures of economic growth, inflation, the labor market, and the financial market. The course emphasizes training economic intuition and providing space for students to explore how these economic concepts relate to policy issues of their interest. The course also provides the economic background necessary to enroll in the Global Economics core GLBL 5010, taken in the spring term. 1 credit, graded. Ardina Hasanbasri

GLBL 5015, Negotiations This half-term course presents a principled approach to negotiation, one based on game theory. The key insight is to recognize what is at stake in a negotiation—the unique value created by an agreement—what we call the “pie.” This lens changes the way students understand power and fairness in negotiation. It helps make students more creative and effective negotiators. The course provides several opportunities for students to practice skill via case studies and get feedback on what students did well and where they might improve. 0.5 credits, SAT/UNSAT.

GLBL 5020, Applied Methods of Analysis This course is an introduction to statistics and their application in public policy and global affairs research. It consists of two weekly class sessions in addition to a discussion section. The discussion section is used to cover problems encountered in the lectures and written assignments, as well as to develop statistical computing skills. Throughout the term we cover issues related to data collection (including surveys, sampling, and weighted data), data description (graphical and numerical techniques for summarizing data), probability and probability distributions, confidence intervals, hypothesis testing, measures of association, and regression analysis. The course assumes no prior knowledge of statistics and no mathematical knowledge beyond calculus. 1 credit, graded. Justin Thomas
GLBL 5040, Comparative Politics for Global Affairs  Economics can tell us with increasing precision what policies maximize growth, welfare, and productivity. But how are policies actually made? Why are so many poor policies adopted and good ones foregone? In this course students investigate how government organization and the structure of political competition shape the conditions for better and worse economic policy making across a range of economic policies including macroeconomic policy, corporate and financial regulation, industrial policy, and trade. Students consider these policy areas in democratic and nondemocratic regimes, and in developed and developing countries. 1 credit, graded. Jennifer Gandhi

GLBL 5065, Introduction to Artificial Intelligence and Its Applications  The purpose of this course is to provide students with a comprehensive introduction to Artificial Intelligence including a history of general AI (from Turing and “the test” through the “AI winter” to present); the possibility and fears of an AI that could supplant humanity and the sceptics who mock those fears as irrational; and the current, more narrow definitions and technical applications of what is referred to as AI including deep learning, neural networks and machine learning. From these building blocks, students consider certain applications of AI to national defense, climate change, and government policies with an eye to the tension between technological capability and ethical imperatives. The goal of this course is for students to emerge first and foremost, with a more advanced tech literacy, if not fluency and to possess a strong AI- and machine-learning working vocabulary. Further, students learn how to effectively differentiate AI from ML, myth from reality, and rational fear from speculative science fiction. 1 credit, graded. William Casey

GLBL 5095, Introduction to Special Operations  For nearly twenty years, the world has seen the role, funding, and employment of U.S. Special Operations Forces (SOF) increase in ways that might seem unrecognizable to previous generations of civilian and military leaders. As the world transitions from two decades of SOF-heavy conflict into Great Power Competition among nation states, an understanding of the SOF community’s history, evolution, and future will be critical for those trying to navigate national security questions in the decades to come. This course looks specifically at historic utilization of these forces and at post-9/11 expansion of authorities, funding, and mission-sets; and it considers what their proper role and function may look like moving forward. Students gain a foundational understanding of a relatively small component of the U.S. military with an outsized strategic position on the global stage. 1 credit, graded. Chris Fussell

GLBL 6115/CPSC 611, Topics in Computer Science and Global Affairs  This course focuses on “socio-technical” problems in computing and international relations. These are problems that cannot be solved through technological progress alone but rather require legal, political, or cultural progress as well. Examples include but are not limited to cyber espionage, disinformation, ransomware attacks, and intellectual-property theft. This course is offered jointly by the SEAS Computer Science Department and the Jackson School of Global Affairs. It is addressed to graduate students who are interested in socio-technical issues but whose undergraduate course work may not have addressed them; it is designed to bring these students rapidly to the point at which they can do research
Fall Courses

on socio-technical problems. Knowledge of the basics of cryptography and computer security (CPSC 467), networks (CPSC 433), and databases (CPSC 437) is helpful but not required. 1 credit, graded. Joan Feigenbaum, Edward Wittenstein

GLBL 6130, Education Policy in Africa The course provides an overview of the current state of education on the African continent, with a focus on recent empirical research around efforts to increase access and improve the quality of education. Through a series of weekly seminars, we critically read papers organized by themes such as eliminating user fees, teacher policies, private/non-government schooling, post-colonial language in education policies, pedagogical interventions, education technology, school inputs and cash transfers. We focus on research that aims to establish causal impacts through a variety of research designs including difference-in-differences, fixed effects, regression discontinuity, and randomized controlled trials. We place an emphasis on understanding the identification strategy of each paper and assessing the plausibility of the underlying assumptions and the credibility and relevance of the policy insights. A key purpose of the course is to develop the skills required to critically read and utilize existing empirical research in policy making. For the final three weeks of the course, we focus on using empirical research for policy making. We begin with cross-study comparisons and then move on to consider issues of replicability, publication bias, external validity and ethics. We pay particular attention to criticisms of RCTs given their dominance in empirical studies. 1 credit, graded. Cally Ardington

GLBL 6165, China’s Rise and the Future of Foreign Policy China’s return to its traditional role as a regional—and, increasingly, global—power has implications for the political, security, and economic structures that have been the foundation of the international system since the end of the Second World War. This course looks at the impact China’s ascent has had, the challenges a rising China will pose for policy makers in the years ahead, and the internal issues China will need to address in the years ahead. It does so from the perspective of a practitioner who spent nearly three decades working on U.S. foreign policy and U.S.-China relations. 1 credit, graded. David Rank

GLBL 6170/LAW 21361, Chinese Law and Society This course surveys law and legal practice in the People's Republic of China. Particular attention is given to the interaction of legal institutions with politics, social change, and economic development. Specific topics include, among others, the Party State, state capitalism, the judiciary, property law and development, business and investment law, criminal law and procedure, media (especially the Internet), and major schools of Chinese legal and political thought. Prior familiarity with Chinese history or politics is unnecessary but helpful. All course materials are in English. Paper required. Enrollment limited. Permission of the instructor required. Follows Yale Law School’s academic calendar. 1 credit, graded. Taisu Zhang

GLBL 6225/GLBL 388, The Politics of American Foreign Policy This seminar addresses the domestic political considerations that have affected American foreign policy in the post-World War II world. The goals are to give historical context to the formation of major existing global governance structures, give students an opportunity to research how major foreign policy decisions in the past were influenced by contemporary political pressure, and assess what effect those pressures have had on today’s global issues.
Case studies include but are not limited to Truman and the Marshall Plan; Johnson and the Vietnam War; Nixon and the opening of China; Reagan and the collapse of the Soviet Union; George H.W. Bush and Iraq; Clinton and the Balkans; and Obama and the development of a multipolar foreign policy for a multipolar world. Students assume the role of decision-makers under political pressure and are asked to generate a point of view regarding past, present, and future foreign policy decisions. 1 credit, graded.

Howard Dean

GLBL 6250, Town & Gown: Global Perspectives on a Troubled Relationship
In this seminar, we examine the state of town-gown relationships and their repercussions on the cultivation of a good society. Sensitively engaging with New Haven as a site for understanding and grappling with these issues, we explore the ways in which higher education institutions engage, interface with, and impact the civic spaces they inhabit, with particular reference to economic development, political power, and social inclusion. We ask, what is the responsibility of Yale to building “the good society” in New Haven? Drawing on the lived experience of global thought leaders – drawn from the Yale World Fellows and beyond – we look at case studies and approaches to town-gown that offer examples of good practice and provide frameworks for understanding what can go wrong, and why. Key questions and lines of inquiry: What is a good society? What is “Town” and what is “Gown”? What is the responsibility of an academy to the town in which it is located? What is our positionality as members of that academy? 1 credit, graded.

Abdul-Rehman Malik

GLBL 6285, China’s Challenge to the Global Economic Order
In the decades after 1979, China’s adherence to key tenets of the U.S.-backed liberal international economic system enabled it to achieve middle income status. After the 2008-9 global financial crisis, however, weaknesses in the U.S. model combined with China’s own sustained growth increased Beijing’s confidence in an alternative, state-oriented model that increasingly underpins China’s foreign economic engagement. This course examines the Global Security and Belt and Road initiatives, trade, investment, and development policies, international organization advocacy, business practices, and other aspects of China’s growing international economic footprint. These factors are analyzed from the perspective of China’s internal dynamics, competition with the United States, and overall foreign policy goals, and are evaluated for their impact on the prevailing global economic order. The course is taught by a practitioner who spent over a decade managing U.S. Government economic policy in and on China. 1 credit, graded.

Hanscom Smith

GLBL 6290, Catalyzing Private Sector Investment in Sub-Sahara Africa
Africa is home to some of the fastest growing economies globally and has the youngest population in the world, with a median age below 20 years. The continent is disproportionately endowed with over 30% of the world’s natural resources as well as 65% of the world’s arable land. In stark contrast, Africa is also home to 27 of the world’s poorest countries, representing half of the continent. Can the Private Sector in Africa be a catalyst for the continent’s commercial an industrial development? Can investment in technology yield a demographic dividend? How does the continent manage its natural resource wealth sustainably? With the signing of the Africa Continental Free Trade Area (AFCFTA) by 54
nations, can the continent boost intra-Africa trade and drive inclusive economic growth? In this course, we approach these questions through seminar discussions, case studies, role play and subject matter guest speakers. The course is taught by a practitioner who has more than thirty years’ experience in global corporate banking, including over a decade at C-Suite level across sub-Saharan Africa. 1 credit, graded. Joyce-Ann Wainaina

**GLBL 6555/MGT 890, Global Financial Crisis** This course surveys the causes, events, policy responses, and aftermath of the recent global financial crisis. The main goal is to provide a comprehensive view of this major economic event within a framework that explains the dynamics of financial crises in a modern economy. The course combines lectures (many online), panel discussions with major actors from the crisis, and small group meetings. Course requirements are the preparation of four memos and a final paper with either an extended analysis of a case or a literature review for a specific topic from the syllabus. Prerequisite: Successful completion of a course in introductory economics. 1 credit, graded. Andrew Metrick, Timothy Geithner

**GLBL 6565, Digital Transformation for Inclusive Growth** As the world emerges from a global pandemic, we face a myriad of new and legacy challenges, from responding to and preparing for pandemics, to understanding the changing nature of work, to battling climate change, unlocking economic mobility, rethinking financial systems, and addressing a range of other complex issues that offer a path towards more inclusive, equitable, and prosperous economies. The acceleration of digital transformation during COVID-19 has been acknowledged by many as a by-product of the pandemic and cited as both a potential enabler and threat to development. The role of technology in driving inclusive growth is not new, but it has been evolving, from a discourse on emerging technologies to digital as an essential part of infrastructure and towards digital transformation as an essential evolution for building inclusive and prosperous economies. The purpose of this course is to understand what role digital technologies, ecosystems and infrastructure play in building more inclusive, equitable economies around the world. It recognizes digital as both a suite of tools, applications, and solutions, as well as an evolving ecosystem that creates the space for new approaches, structures, and systems for societal interaction. It questions what role technology can and has played in facilitating economic growth and explores current and future risks to its design. The course tackles a range of questions such as: What is the role of technology, data, and digital transformation as a driver, enabler, or inhibitor of inclusive growth around the world? How are digital economies being designed to drive greater of equity and inclusion, especially to address critical challenges such as access to healthcare, education and employment, or climate change or unlock economic opportunity by supporting small business growth, inter and intra-regional trade, enabling creatives industries? What are the drivers of digital transformation? What have been the examples that stand out? What systemic barriers continue to exist? What is the unique role of digital infrastructure such as identity systems, payments, asset registries, and data exchanges? What role do policy, capital, and innovation play in this ecosystem? What are the major risks and tensions to consider? What role can and do government, industry, and the philanthropic community play in building inclusive digital economies for the future? 1 credit, graded. Robin Miller
GLBL 6570, Macroeconomics and Global Affairs This course develops a framework for understanding the causes and consequences of macroeconomic events in real time. The learning objective of the class is to provide public policy students with the required academic and policy background to understand how an adverse macroeconomic event unfolds, be it a pandemic, a financial crisis, economic sanctions, or a war, and what the proper policy responses are. We also pay close attention to a current policy debate that will shape the next decade: the future of money (cryptocurrencies, central bank digital currencies, etc.). 1 credit, graded. Marnix Amand.

GLBL 6575, The European Union as a superpower? The European Union is a unique idealistic experiment that tries to move political life in Europe beyond the nation state. This experiment has been successful beyond expectations: a single market, a single currency, powerful supranational institutions, and significant economic, regulatory and human rights influence beyond its borders and yet today the EU seems politically powerless, dispersed and vulnerable, and faces life threatening challenges, both from within and external. This course aims to explain what the EU is (and is not) today, its institutions, politics, economy and history, and focuses on the relevance of the EU in today's world affairs. 1 credit, graded. Marnix Amand

GLBL 6580/MGT 944, Macroprudential Policy I This two-term course (with GLBL 6581) focuses on current macroprudential theory and the application and experience of macroprudential policy. The course focuses on the motivation for monitoring systemic risk and what indicators may be best to evaluate systemic risk. Macroprudential policy tools, theory behind them, and research on their efficiency, supported with data analysis, models, and examples of use of the tools and evaluation of their efficiency. 1 credit, graded. Sigridur Benediktsdottir, Greg Feldberg, Margaret McConnell

GLBL 6585/MGT 960, Economic Analysis of High-Tech Industries This course applies Industrial Organization frameworks from economics to four major verticals (mobility, eCommerce, video streaming, and payments) across three geographies (China, EU, and US). Students are expected to learn the IO concepts (e.g., network effects, switching costs, economies of scope) and develop insights about how high-tech industries are organized, firm-level strategies, and valuations of firms. The course also investigates how major forces like the development of 5G networks are likely to change these industries. 1 credit, graded. Edward Snyder

GLBL 6590/MGT 612, Social Entrepreneurship Lab This is a practice-based course in which students from across campus form interdisciplinary teams to work on a social challenge of their choice. Teams include students from SOM, SPH, FES, YDS, Jackson School, and other Yale professional schools and programs. Students start by identifying a topic area of focus, then form teams based on shared interests and complementary skills. Over the course of thirteen weeks, student teams delve into understanding the challenge through root cause analysis, research on existing solutions and populations affected; then apply human centered design thinking and systems thinking to design, prototype, test, and iterate solutions. Using tools such as the theory of change, logframe, business canvas, and social marketing strategy, teams build and test their impact models, operational models, and revenue models. Readings and assignments from the textbook
Introduction to Social Entrepreneurship are used to guide this journey. These include technical templates, case studies, and interviews with social entrepreneurs and thought leaders in different sectors and geographies around the world. The class meets for eighty minutes twice a week and includes in-class exercises along with social entrepreneur guests who join the class to share their experience, advice and challenges. At the end of the term, student teams pitch their ventures to a panel of judges including social venture funders and social entrepreneurs. Teams are encouraged, but not required, to submit their ventures to one of the campus wide startup prizes. While there are no prerequisites, this course builds on the SOM core course Innovator, and electives including Principles of Entrepreneurship, Entrepreneurship & New Ventures, Public Health Entrepreneurship and Intrapreneurship, Global Social Entrepreneurship, Managing Social Enterprises, and Business and the Environment Solutions. Enrollment is limited. Course follows the School of Management calendar. 1 credit, graded. Teresa Chahine

GLBL 6610, Artificial Intelligence, Emerging Technologies, and National Power I  This two-term course, featuring guest scholars and practitioners from across the university, examines how artificial intelligence (AI) has the potential to alter the fundamental building blocks of world order. Machines capable of sophisticated information processing, towards the frontier of autonomy, pose tremendous opportunities for economic growth and societal well-being. Yet the potential risks also are extraordinary. How can we build AI systems that are reliable, transparent, safe, scalable, and aligned with human values? Following an introduction to AI and survey of current research challenges, the seminar focuses on seven core areas where AI and emergent technologies already pose significant security concerns: (1) lethal autonomous weapons and the nature of conflict, (2) disinformation and the future of democracy, (3) competition and conflict in U.S.-China relations, (4) AI ethics and safety, (5) AI governance, (6) nanotechnology and quantum computing, and (7) outer-space development. For each of these sub-units, the goal is to equip aspiring leaders with requisite technical fluency, and to bridge the divide across the law, technology, and policy communities at Yale. 1 credit, graded. Edward Wittenstein

GLBL 7020/ENV 761, Negotiating International Agreements: The Case of Climate Change  This course is a practical introduction to the negotiation of international agreements with a focus on climate change. Through the climate lens, students explore cross-cutting features of international agreements, the process of international negotiations, the development of national positions, advocacy of national positions internationally, and the many ways in which differences among negotiating countries are resolved. The seminar also examines the history and substance of the climate change regime, including, inter alia, the 1992 UN Framework Convention on Climate Change, the 1997 Kyoto Protocol, the 2009 Copenhagen Accord, the 2015 Paris Agreement, and recent developments. There will be two mock negotiations. 1 credit, graded. Sue Biniaz

GLBL 7030/MGT 582, The Future of Global Finance  Finance can be likened to the circulatory system of the global economy, and we focus on the past, present, and future of that system. The course is designed to deal with questions such as these: What is the global financial system and how does it work? What are the pressures on that system including market, regulatory, political, and social dynamics? What are the key challenges
to that system? How can the system be strengthened? In this course we define the global financial system (GFS) as encompassing central banks, commercial banks, and other financial institutions such as asset managers and private equity firms, financial regulators, and international organizations. Thus the course encompasses subjects such as the U.S. Federal Reserve and the European Central Bank, Goldman Sachs and the Hong Kong Shanghai Bank, the Carlyle Group and the BlackRock Investment Management Co., the Financial Stability Oversight Council and the Financial Stability Board, the Bank for International Settlements and the International Monetary Fund. We take a broad view of the GFS including its history, geopolitical framework, economic foundations, and legal underpinnings. We consider the GFS as a critical public good in the same way that clean air is a public good. We look at a number of other key issues such as how the GFS deals with economic growth, economic and financial stability, distributional questions, employment issues, and long-term investments in infrastructure. We discuss how new technologies are affecting several of the biggest issues in global finance. We examine the GFS as a large-scale complex network, thereby compelling us to see it in an interconnected and multidisciplinary way. The emphasis is on the practice of global finance more than the theory. The course is open to graduate students throughout Yale and to seniors in Yale College. It follows the SOM academic calendar. Prerequisite: an undergraduate or graduate course on macroeconomics. In order to enroll in the course, students must attend the first class meeting. 0.5 credit, graded. Jeffrey Garten

GLBL 7055, Global Crises Response With a special emphasis on the United States, this course explores how the international community responds to humanitarian crises and military interventions. We examine the roles and responsibilities of members of the diplomatic corps, senior military officials, nongovernmental organizations, and international financial organizations in order to understand the skill sets required for these organizations to be effective. Through readings, discussions, role-play, writing exercises, and other tools, we learn how organizations succeed and sometimes fail in assisting individuals and nations in peril. We examine emerging regional hot spots, with an emphasis on sub-Saharan Africa, Eastern Europe, the Middle East, and Southeast Asia. We explore the challenges facing the governments, civil society organizations, and businesses in the aftermath of crises and the impact on citizens. We review the effectiveness of regional organizations like the Association of Southeast Asian Nations (ASEAN), the Organisation of Islamic Cooperation (OIC), and the African Union (AU) in assisting governments rebuild and stabilize their societies. We have several role-playing simulations during which students play the role of an individual or organization responsible for briefing counterparts on key events. 1 credit, graded.

GLBL 7070, Russian Intelligence, Information Warfare, and Social Media This course explores the evolution of information warfare as a national security threat to the United States and democratic countries around the world. Beginning with the KGB’s use of “active measures” during the Cold War, the course looks at how propaganda and disinformation campaigns became central to the Putin regime and how social media has facilitated their expansion. We examine the psychology of disinformation and how media “bubbles” and existing social fissures in the United States, such as racism and political polarization, provide ripe vulnerabilities for exploitation by foreign actors.
Using Russia’s efforts in U.S. presidential elections, during COVID, and in Ukraine as examples of this new form of warfare, students explore potential policy solutions in the realm of Internet regulation, civic education, media literacy, and human “social capital” as defenses against this growing threat. Guest speakers with expertise in Russian intelligence, information warfare, psychology, and other disciplines complement the discussion. 1 credit, graded. Asha Rangappa

**GLBL 7095/LAW 20568/WGSS 529, Sexuality, Gender, Health, and Human Rights**
This course explores the application of human rights perspectives and practices to issues in regard to sexuality, gender, and health. Through reading, interactive discussion, paper presentation, and occasional outside speakers, students learn the tools and implications of applying rights and law to a range of sexuality and health-related topics. The overall goal is twofold: to engage students in the world of global sexual health and rights policy making as a field of social justice and public health action; and to introduce them to conceptual tools that can inform advocacy and policy formation and evaluation. Class participation, a book review, an Op-ed, and a final paper required. Enrollment is limited and permission of the instructor required. Course follows the Law School calendar. 1 credit, graded. Ali Miller

**GLBL 7130, Turning Points in Peacebuilding**  
This seminar examines the challenges that must be addressed once the fighting has stopped, a peace agreement is signed, and the process of building a peace must begin. Former rebels negotiate with their military commanders about relinquishing arms and working for a living; communities look for “peace dividends,” refugees weigh options to return home; Governments try earnestly to assert authority despite how weakened they have become or new to the role they are; and compatriots who opposed the peace settlement relentlessly try to undermine it. The international community, which often leads the warring parties to the table, takes on a new role as well, informing and sometimes deforming outcomes. Building a durable peace after conflict requires a sensitivity to the changing priorities of the signatories and international community, as well as the constituencies for whom the peace was achieved. Anchored in (but not limited to) the ongoing UN-supported peace agreement implementation process in Mali and the monitoring process of the Final Agreement to End Armed Conflict and Build a Stable and Lasting Peace in Colombia, the seminar considers peace-building processes from the perspectives of formerly warring parties, diplomats, NGOs, and civil society, providing students an opportunity to begin to catalogue strategies for building durable peace following conflict. The seminar also complements the anticipated Colloquium on Strategies for Sustainable Peacebuilding: Implementation & Policy, hosted at Yale in the late fall. 1 credit, graded. Bisa Williams

**GLBL 7150, Managing the Clean Energy Transition: Contemporary Energy and Climate Change Policy Making**  
This seminar explores the principal challenges facing key global economies in managing their respective transitions to a clean energy future and the goals of the Paris agreement, while simultaneously meeting their energy security needs and keeping their economies competitive. By the end of the course, students should be familiar with key features of the global energy and climate change architecture, principal challenges facing policy makers around the world in balancing energy and climate goals, and prospects for the development of key fuels and technologies as we advance toward
a net zero emissions world. After a solid grounding in energy and climate scenarios, the course explores the role of electricity and renewable energy, energy efficiency, and clean energy technologies in the clean energy transition; corporate and financial sector climate initiatives; economic tools including carbon pricing; and the shifting roles of fossil fuels in the clean energy transition. 1 credit, graded. Paul Simons

GLBL 7175/LAW 20837, The Russo-Ukrainian War The course examines the many legal aspects of the Russian invasion of Ukraine, providing students a comprehensive, integrated sense of whether and how national and international legal systems can address such challenges. Among the subjects we explore are the background of relations between Ukraine and Russia; litigation in the International Court of Justice and the European Court of Human Rights; initiation and conduct of hostilities; targeting; forbidden weaponry; commission, investigation and prosecution of war crimes; treatment of refugees; prisoners of war; sanctions and retaliatory measures; cyber and social media in war; mercenaries and foreign volunteers; military justice and other forms of domestic accountability for misconduct; role of the International Committee of the Red Cross; the role of NATO (and its expansion); legal aspects of arms transfers; continuity of government; preservation of civil rights in war; peacemaking; and reparations. Paper required. This course follows the Law School calendar.1 credit, graded. Eugene Fidell

GLBL 7260/MGT 529, GSE India: Global Social Entrepreneurship Launched in 2008 at the Yale School of Management, the Global Social Entrepreneurship (GSE) course links teams of Yale students with social enterprises based in India. GSE is committed to channeling the skills of Yale students to help Indian organizations expand their reach and impact on “bottom of the pyramid” communities. Yale students partner with mission-driven social entrepreneurs (SEs) to focus on a specific management challenge that the student/SE teams work together to address during the term. GSE has worked with thirty leading and emerging Indian social enterprises engaged in economic development, sustainable energy, women’s empowerment, education, environmental conservation, and affordable housing. The course covers both theoretical and practical issues, including case studies and discussions on social enterprise, developing a theory of change and related social metrics, financing social businesses, the role of civil society in India, framing a consulting engagement, managing team dynamics, etc. Enrollment is by application only. 0.5 credit, graded. Tony Sheldon

GLBL 7280, Leadership This course is designed for students wanting to deeply reflect on what it means to be a leader, and to help them prepare for leading others in their future. Amongst the many pressures of the role, leaders affect the lives of those they lead, influence the health of the organization they oversee, and hold an important role in advancing social progress. Many learn these realities through trial and error but are rarely given the time to consider what leadership truly entails and how we, as individual leaders, will handle the challenges that lie ahead. From heading up a small team to running a major organization, leadership is often an isolating and uncertain position, but is also full of opportunity to positively impact others, and to advance society broadly. Leadership is challenging, exciting, and sometimes terrifying; but most importantly, it is a choice to which one must recommit every day. This course is designed to offer a foundation in the
practice of leadership for students who want to take on these challenges in their future. The course is divided into three main sections: historic perspectives on leadership, leadership in context, and personal reflections on leadership. Students finish the term with a foundational understanding of leadership models throughout history, a range of case studies to refer to in the future, and most importantly, a personal framework that can be applied and expanded throughout their journey and growth as a leader. Students do not leave with all the answers they need to conquer the countless challenges that leaders face, but they instead leave with an understanding of how leaders work, every day, to improve themselves and better the lives of those they lead. 1 credit, graded. Chris Fussell

GLBL 7290/MGT 629, Ethical Choices in Public Leadership All public leaders must make choices that challenge their code of ethics. Sometimes, a chance of life or death is literally at stake: how and when should a leader decide to let some people die, or explicitly ask people to die to give others a chance to live? At other times, while life or death may not be at stake, a leader must still decide difficult issues: when to partner with unsavory characters, when to admit failure, when to release information or make choices transparent. The pandemic, the war in Ukraine, and continued instability around the world all make clearer than ever the consequences of decisions in one community that can affect the entire world. This interdisciplinary seminar draws on perspectives from law, management, and public policy in exploring how leaders develop their principles, respond when their principles fail or conflict, and make real-world choices when, in fact, there are no good choices. Both permission of the instructor and application are required. Attendance at first session is mandatory. 1 credit, graded. Eric Braverman

GLBL 7535/GLBL 392, Intelligence, Espionage, and American Foreign Policy The discipline, theory, and practice of intelligence; the relationship of intelligence to American foreign policy and national security decision-making. Study of the tools available to analyze international affairs and to communicate that analysis to senior policy makers. Case studies of intelligence successes and failures from World War II to the present. 1 credit, graded. Ted Wittenstein

GLBL 7600/HIST 790, Relations of the Great Powers since 1890 Reading seminar. Among the topics covered are the “New Imperialism,” the military and naval arms race prior to 1914, the relationship between domestic politics and foreign affairs, the First World War and the alteration of the Great Power order, the “new diplomacy,” appeasement, the rise of the dictator-states, the origins of the Second World War, military and strategic results of the war, the Cold War, reconfigurations of the 1970s and ‘80s, the end of the Cold War, post-Cold War relations. There is a heavy emphasis on historiography and an encouragement to relate economic and strategical trends to diplomatic. Open to undergraduate seniors with permission of the instructors. 1 credit, graded. Paul Kennedy, Arne Westad

GLBL 8000, Directed Reading with Senior Fellow Directed reading or individual project option is designed for qualified students who wish to investigate an area not covered in regular graduate-level courses. The student must be supervised by a senior fellow, who sets the requirements and meets regularly with the student. Usually limited to one per term, this option may involve reading the literature on a topic, attending a lecture or
seminar series, and writing a substantial research paper. It is the student’s responsibility to make all the arrangements before the term begins.

GLBL 9800, Directed Reading  Directed reading or individual project option is designed for qualified students who wish to investigate an area not covered in regular graduate-level courses. The student must be supervised by a faculty member, who sets the requirements and meets regularly with the student. Usually limited to one per term, this option may involve reading the literature on a topic, attending a lecture or seminar series, and writing a substantial research paper. It is the student’s responsibility to make all the arrangements before the term begins. By arrangement with faculty.

GLBL 9990, Global Affairs Thesis  The thesis is an optional yearlong research project that is completed in the final academic year of the M.P.P. degree. It is intended for students who wish to make a major policy-oriented research project the culmination of the student’s educational experience in the program. M.P.P. theses involve independently performed research by the student under the supervision of a faculty adviser. Students work with faculty advisers in designing their project and in writing the thesis. See the Appendix for detailed guidelines.

SPRING 2023

GLBL 5001, Disinformation and the Craft of Ethical Persuasion  From Putin’s willful perversion of Ukrainian history to anti-vax propaganda to QAnon conspiracy theories, disinformation has pervaded the policy and political landscape with tragic consequences. Disinformation poses problems for policy professionals who seek to advance sensible, evidence-based solutions but are confronted by resistance from the disinformed. In this course we briefly examine the phenomenon of disinformation before identifying practical rhetorical and communication strategies to combat disinformation in the public and professional domains. Evidence consistently shows that, to persuade a skeptical audience, a combination of emotional and rational appeals is required. Therefore, in this course we practice deploying both emotional and rational appeals in a variety of formats, from public-facing documents like op-eds to memos and briefs intended for policy professionals. Along the way, we also confront difficult normative questions: if emotional appeals are meant to hijack the reader’s rational thinking, when and how can a policy professional deploy them not only effectively but ethically? When do emotional appeals devolve into the ethically dubious territory of disinformation or spin? Students will explore these questions by reading a selection of texts on the nature of persuasive writing while participating in a series of workshops in which they read closely and critique each other’s written work. Through the process of reading, writing, revising, and critiquing, students will discover how to hone their skills at persuading disinfomed readers without sacrificing their values. 0.5 credits, SAT/UNSAT. David Morse

GLBL 5002, Policy Communicator  Policy professionals engage a spectrum of stakeholders as they analyze issues and share findings. This work requires a refined set of personal communication tools for inquiry, collaborating, reporting, and presenting policy recommendations. Students in this course strengthen their skills by experimenting with the oral communication tasks related to policy work. We address the different
types of information architecture required in synchronic contexts, explore the cognitive
approaches needed for spoken interactions, build confidence in speaking to groups, and
diversify approaches to persuasion. Students benefit from speech analysis technology
and personal data visualizations of their linguistic choices. Throughout the course, stu-
dents receive rich feedback about the impact of their words, the clarity of their messages,
and their policy advocacy. 0.5 credits, SAT/UNSAT. William Vance

**GLBL 5010, Economics for Global Affairs**  
This core course introduces students to the
critical issues facing the global economy today. One of the main goals of the course is to
practice how to use measurement and economic frameworks to analyze current events.
The course teaches students how to apply economic reasoning to policy issues in the
real world building on the concepts covered in the first-term economics course and new
concepts presented in the course. We use these frameworks to understand questions
such as: Why do some countries richer than others? How much inequality is, and should
we worry about it? How are wages and interest rates determined? How do countries
conduct fiscal and monetary policy to smooth the business cycle? What determines the
gains from international trade and migration? 1 credit, graded. Lorenzo Caliendo, Amit
Khandelwal, Ardina Hasanbasri

**GLBL 5030, History and Global Affairs**  
Nobody can understand the present without a
keen understanding of the past. After all, history is all we have to go on in providing the
resources for making sense of the world we live in. Successful policy makers understand
this and turn historical sensibility to their advantage in interpreting the present. They
understand how good policy is grounded in sound historical thinking. The purpose of
the core requirement is to introduce advanced students of global affairs to the manifold
ways in which history is discussed and perceived today. Different from the social sciences,
history as a discipline is less about prediction and more about finding out where we
come from and what challenges the past has bequeathed to us. It is also about grasping,
in a critical fashion, that we know the future only by the past we project into it. 1 credit,
graded. David Engerman

**GLBL 5050, Introduction to Python for Global Affairs**  
In the second decade of the
twenty-first century, “big data” analytics and techniques have fundamentally trans-
formed policy decisions both in the United States and throughout the globe. NGOs,
NPOs, political campaigns, think tanks, and government agencies more and more recruit
policy analysts with the necessary skills to embrace novel, data-driven approaches to
policy creation and evaluation. This course is designed to help students meet this grow-
ing demand. It is an introductory course in Python programming and data analysis for
policy students with no prior coding experience. Unlike massive introductory classes,
this course is deliberately small, designed to provide the necessary support for humanists
to make a smooth and nurturing transition to “tech humanists.” Ultimately, students
should be comfortable using what they’ve learned in further Yale courses in program-
mapping and statistics or in research and policy after leaving Yale. They should know enough
to productively collaborate on projects with engineers, understand the potential of such
work, have sufficient background to expand their skills with more advanced classes, and
perform rudimentary data analyses and make policy recommendations based on these
analyses. 1 credit, graded. William “Casey” King
GLBL 5070, Practicum Data Analysis  This course provides students with practical hands-on instruction in the analysis of survey data using the statistical package Stata. It serves as a bridge between the theory of statistics/econometrics and the practice of social science research. Throughout the term, students learn to investigate a variety of policy and management issues using data from the United States as well as several developing countries. The course assumes no prior knowledge of the statistical package Stata. Prerequisite: Graduate course in statistics and permission of the instructor. 1 credit, graded. Justin Thomas

GLBL 5075/EMD 582/EP&E 314, Political Epidemiology  Political epidemiology is the study of the impact of welfare regimes, political institutions, and specific policies on health and health equity. This course emphasizes the last among these, the effects of specific policies on health outcomes in infectious diseases and other areas of human health and development. The course takes an issues- and methods-based approach, looking at how to evaluate the effects of political determinants of health (e.g., immigration, education, fiscal and environmental policies) through experimental and quasi-experimental methods as well as various techniques associated with policy modeling (e.g., Markov models, systems dynamics, microsimulation, spatial models). 1 credit, graded. Greg Gonsalves

GLBL 6110, Mass Incarceration in the Soviet Union and the United States  An investigation of the experience and purposes of mass incarceration in the Soviet Union and the United States in the twentieth century. Incarceration is central to the understanding, if not usually to the self-understanding, of a society. It is thus a crucial aperture into basic questions of values and practices. This course proposes a frontal approach to the subject, by investigating two of the major carceral systems of the twentieth century, the Soviet and the American. Intensive reading includes first-person accounts of the Gulag and American prison as well as scholarly monographs on the causes of mass incarceration in different contexts. Brief account is taken of important comparative cases, such as Nazi Germany and communist China. Guest lectures and guest appearances are an important element of our teaching. 1 credit, graded. Timothy Snyder

GLBL 6150, Contemporary Development Issues in Latin America and the Caribbean  This course surveys current development issues in Latin America and the Caribbean. Students gain significant knowledge and practical understanding of the Region’s socioeconomic situation as well as relevant political issues that impact development. The course focuses on key regional issues in Central America, South America, and the Caribbean, with particular attention to “hot spot” countries like Venezuela, Colombia, Haiti, and Cuba. Dedicated sessions are held to discuss topics such as inequality and poverty; the status of indigenous and afro-descendent people; migration in Central America and the Venezuela-Colombia border, including the crisis in Venezuela; the peace process in Colombia; climate change and disaster risk in the Caribbean; gender politics and representation; drug trafficking, crime, and violence; COVID-19 impact and recuperation. Potential solutions and responses to these issues are also reviewed from the perspective of development practitioners. 1 credit, graded. Jessica Faieta
GLBL 6175/LAW 21179, Contemporary China Research  Research and writing on contemporary problems related to China, including but not limited to legal issues. The class meets roughly six times during the term to discuss particular China-related issues (occasionally with a guest) and at the end of the term for student presentations of their research. The remainder of the term, students work on their research and writing projects and individually meet with the instructors to discuss their work. Paper required. Enrollment limited to fifteen. Permission of the instructors required. 1 credit, graded. P. Gewirtz, J. Horsley, S. Thornton, R. Williams

GLBL 6190, Reopening and Reimagining Africa  It is time to “reopen and reimagine Africa.” This course requires students to research and redesign policies that will help African nations emerge economically stronger and with a population that is better educated and healthier by 2050. Similarly, students examine, analyze, and support and/or criticize the long-term policies of African nations. This requires students to engage with up-and-coming African scholars, businesspersons, educators, and policy makers to ensure that the recommendations are not conceived in a vacuum. This course also has to examine the obstacles and challenges of great-power competition among the United States, PRC, Russia, and the EU on Africa when designing alternative or status quo policies. 1 credit, graded. Harry Thomas

GLBL 6210/LAW 21104, Arab Spring, Arab Winter, and U.S. Policy in the Middle East and North Africa  This seminar reviews how the United States has responded to weakening states and unrest in the MENA region. Each session examines a particular policy challenge, examining dynamics on the ground, what Washington understood to be its national security interest, and how it developed its policies in terms of strategies and tactics to achieve the perceived national interest. The seminar ranges from the 2013 coup d’état in Egypt to American approaches to political Islam to wars in Yemen, Libya, and Syria. One session examines the American drive to promote federalism in Iraq and the outcomes there, and another assesses the American counterterrorism campaign in the region since 2011. We also examine the challenge of increased refugee flows and the increasing problems connected to climate change, particularly water. Students should leave the course with an understanding of the pressures operating on Arab states and the difficulties American policy makers have addressing these pressures. The seminar should also give students a strong grasp of the policy-making process in the American foreign policy establishment. For those students interested, there are exercises in short memo writing applicable to the government sector. 1 credit, graded. Robert Ford

GLBL 6300, Sustainability Transitions: Principles and Practice in India  This course works with an India-based business, social enterprise, or policymaking agency to develop locally relevant, grounded strategies for accelerating the transition to low-carbon development, with particular emphasis on energy transitions. The course includes readings and discussions on the political economy and engineering realities of sustainability transitions in India (and similar contexts) as well as training in relevant aspects of non-market strategy for introducing novel infrastructure, services, and processes. Students have the opportunity to interact with public and private sector leaders that shape the context for the changes needed and, subject to Yale policy, travel to India to work with the client and gain first-hand knowledge of the implementation environment. 1 credit, graded. Jessica Seddon
GLBL 6540, Current Issues in International Economics  This course deals with the application of international economics analysis to current public policy issues. The objective is for students to gain a broad understanding of international economics analysis and important current related policy issues. A third of the course is devoted to current trade policy issues and how economic analysis can support decision-making and explain outcomes. This topic is very relevant now, as trade deals are being renegotiated and trade wars seem imminent. The rest of the course focuses on international finance and capital flows. As central banks in developed economies start to raise interest rates, international financial flows and exchange rates may be affected, with important implications in particular for emerging economies. 1 credit, graded. Sigridur Benediktsdottir

GLBL 6581, Macroprudential Policy II  Part two of this two-term course (with GLBL 6580) continues to focus on current macroprudential theory and the application and experience of macroprudential policy. The course focuses on the motivation for monitoring systemic risk and what indicators may be best to evaluate systemic risk. Macroprudential policy tools, theory behind them, and research on their efficiency, supported with data analysis, models, and examples of use of the tools and evaluation of their efficiency. Students are encouraged to complete GLBL 6580 prior to enrolling in GLBL 6581. Any exceptions will be handled on a case-by-case basis. 1 credit, graded. Sigridur Benediktsdottir, Greg Feldberg, Margaret McConnell

GLBL 6600, Development Economics  The course exposes students to topics in economic development and international poverty. The course also explores a variety of tools available for rigorously measuring the impact of development programs. The goals of this course are for students to (1) learn about and apply economic theory to issues of development and (2) hone their skill in critically analyzing causal statements and develop a basic understanding of economic tools for identifying causality. Topics covered in this course vary year to year, but typically include poverty and inequality, population and health, education, agriculture, credit, savings, insurance, labor markets, management, technology, governance, and corruption. Completion or simultaneous enrollment in M.P.P. core economics and quantitative methods courses or permission of instructor are required. 1 credit, graded. Lauren Falcao Bergquist

GLBL 6611, Artificial Intelligence, Emerging Technologies, and National Power II  Part two of this two-term course continues to examine how artificial intelligence (AI) has the potential to alter the fundamental building blocks of world order. Machines capable of sophisticated information processing, towards the frontier of autonomy, pose tremendous opportunities for economic growth and societal well-being. Yet the potential risks also are extraordinary. How can we build AI systems that are reliable, transparent, safe, scalable, and aligned with human values? Following an introduction to AI and survey of current research challenges, the seminar focuses on seven core areas where AI and emergent technologies already pose significant security concerns: (1) lethal autonomous weapons and the nature of conflict, (2) disinformation and the future of democracy, (3) competition and conflict in U.S.-China relations, (4) AI ethics and safety, (5) AI governance, (6) nanotechnology and quantum computing, and (7) outer-space development. For each of these sub-units, the goal is to equip aspiring leaders with requisite technical fluency, and to bridge the divide across the law, technology, and policy communities at Yale. 1 credit, graded. Ted Wittenstein
GLBL 7045/LAW 21651, The Law of the Sea  This seminar examines a variety of contemporary issues concerning the law of the sea: piracy, environmental protection, fisheries, maritime security, maritime delimitation, the exclusive economic zone, the continental and outer continental shelves, the deep seabed regime, and the South China Sea. Scheduled examination or paper option. This course follows the Law school calendar. Enrollment is limited. 1 credit, graded. W. Michael Reisman, Gershon Hasin

GLBL 7075, National Security Law  This course explores the legal questions raised by historical and contemporary national security issues and policies. Learning the law is not as simple as learning set rules and applying them: there is rarely a "right" or "wrong" answer to a complex legal question. National security law, in particular, is an expanding field of study, with new laws and policies testing the limits of previously understood constitutional and legal boundaries. We therefore focus on how to approach national security questions by understanding the fundamental legal tenets of national security policies, the analyses used by courts and legislatures to confront various intelligence and terrorism issues, and theories of how to balance the interests of national security with civil liberties. Although the course is taught much like a traditional law class with an emphasis on the U.S. Constitution, statutes, regulations, executive orders, and court cases, no previous legal knowledge is expected or required. 1 credit, graded. Asha Rangappa

GLBL 7220, Rethinking Special Operations  For nearly twenty years, the world has seen the role, funding, and employment of Special Operations Forces (SOF) increase in ways that might seem unrecognizable to previous generations of military leaders. A twenty-year chapter of highly kinetic ground operations for SOF units is seemingly winding down, but that by no means suggests that the next chapter in military strategy will be any less important for Special Operations. With the pivot toward Great Power Competition, and with the challenges posed by climate change, global political instability, the exponential rise in mis/disinformation, and myriad other new challenges, civilian and military leadership alike are forced to consider: What could, or should the role of SOF be going forward? In this course, students with appropriate/informed backgrounds are challenged to rebuild SOF from the ground up. Students are given the latitude to work individually, as teams, or as a large group. The intent is to start with clean-slate thinking and tackle one or several major issues that the SOF community should be revamping now so that these critical communities are ready to tackle the challenges of the next one to two decades. Students have the opportunity to present their concepts and innovative proposals at SOFCON; and to submit a formal paper to the leadership of Special Forces Command, SOCOM, and other SOF units. 1 credit, graded. Christopher Fussell, Emma Sky

GLBL 7240, Great Power Competition and Cooperation  Great power competition rather than terrorism is now the primary concern of U.S. national security. This course focuses on how the United States and China can cooperate to address global challenges, and to reform and upgrade international architecture and develop new norms to ensure competition is nonviolent; and on how the way in which they address inequalities at home increases their ability and legitimacy to project power overseas. 1 credit, graded. Emma Sky
GLBL 7270, Development in Action  This course is an immersion into the “how” of international development, done through a case study of and practicum in Jordan with Turquoise Mountain, an NGO working to preserve heritage in areas of conflict. It is not meant to establish the “how to’s” but is more concerned with the messiness, the human factor, the opportunities, and the realities. We take an in-depth look at the elements—and the complexities—of building and running successful projects, including: How do you build community support? How can you work and get things done with government bureaucracies? How do you work with refugees and others affected by conflict? What are the elements of a sustainable financial model for programs? The practicum also allows students to work on an element of the project, which may include any parts of Turquoise Mountain’s work, from economic development, vocational training, primary education, and health, to sustainable tourism, historic building restoration, heritage, and culture. This is an opportunity for students to explore this kind of work for their career planning and to get a sense of the practical realities of development work—and whether they want to work in the field, or work alongside development projects in the future. The course begins with approximately three sessions (one in person, two over zoom) in the first half of the term. The bulk of the work and the experience takes place over a two-week practicum, scheduled to take place over school break, in Jordan. Students who cannot spend their time off in Jordan for the course should not enroll. 1 credit, graded. Shoshana Stewart

GLBL 7280, Leadership  This course is designed for students wanting to deeply reflect on what it means to be a leader, and to help them prepare for leading others in their future. Amongst the many pressures of the role, leaders affect the lives of those they lead, influence the health of the organization they oversee, and hold an important role in advancing social progress. Many learn these realities through trial and error but are rarely given the time to consider what leadership truly entails and how we, as individual leaders, will handle the challenges that lie ahead. From heading up a small team to running a major organization, leadership is often an isolating and uncertain position, but is also full of opportunity to positively impact others, and to advance society broadly. Leadership is challenging, exciting, and sometimes terrifying; but most importantly, it is a choice to which one must recommit every day. This course is designed to offer a foundation in the practice of leadership for students who want to take on these challenges in their future. The course is divided into three main sections: historic perspectives on leadership, leadership in context, and personal reflections on leadership. Students finish the term with a foundational understanding of leadership models throughout history, a range of case studies to refer to in the future, and most importantly, a personal framework that can be applied and expanded throughout their journey and growth as a leader. Students do not leave with all the answers they need to conquer the countless challenges that leaders face, but they instead leave with an understanding of how leaders work, every day, to improve themselves and better the lives of those they lead. 1 credit, graded. Chris Fussell

GLBL 7310, Policy Challenges in the Sahel  This course encourages students to examine contemporary policy challenges as handled in the Sahel: climate change, human rights, the status of women and gender policies, burgeoning democracies upended by conflict and institutional weakness, the influences of culture and religion, race and ethnicity.
Students combine research and field work to examine how those challenges are addressed by international foreign policy practitioners as well as national and community leaders. The objective is to introduce students who know little about the countries of the Sahel to elements of its history, diverse cultures, and contemporary challenges. Led by a veteran US diplomat and former US Ambassador to Niger, the course introduces students to the cultural diversity, history, opportunities, and challenges in the Sahel region as responded to by the international community and addressed by local and international actors. This course includes the opportunity for a field visit to a Sahelian country (either Niger, Mauritania, or Senegal) during the spring recess. Enrollees for credit must participate in the field visit. 1 credit, graded. Bisa Williams

**GLBL 7510, American Power in the Twenty-First Century: Lessons in Diplomacy** This seminar examines the clash and conflict of theory and ideology with the reality of implementing U.S. foreign policy in an age of disaggregation; in other words, what do U.S. Administrations set out to do in the world, and what constraints and unforeseen externalities do they encounter? The course takes a case study and interdisciplinary approach to understanding national security from the perspective of practitioners, examining failed and failing states, public diplomacy, the role of Congress, the impact of domestic policy and public opinion on the conduct of foreign policy, the implications of partnerships and alliances, the challenge of authoritarian populism, rising sectarianism and violent extremism, climate change, capacity building, and global development. Students hear from guest speakers and focus on a series of case studies from the perspective of those who make and implement U.S. foreign policy, and those who have tried to theorize about it. 1 credit, graded. David Wade

**GLBL 7530, Cybersecurity, Cyberwar, and International Relations** Analysis of international cyberrelations. Topics include cybercrime, cyberespionage, cyberwar, and cybergovernance. Readings from academic and government sources in the fields of history, law, political science, and sociology. 1 credit, graded. Ted Wittenstein

**GLBL 7545/LAW 21454, Introduction to International and Transnational Law** The course covers both the public and the private dimensions of international and transnational law. Among the topics to be studied are such public international topics as the law of treaties, customary international law, international legal institutions, and the use of force; transnational legal process (including dispute settlement, transnational litigation, and transnational arbitration) and selected issues of “transnational legal substance,” including the Constitution and foreign affairs; international environmental law; international criminal law; and international business transactions. 1 credit, graded. Harold Koh

**GLBL 7560, Democracy and Distribution** An examination of relations between democracy and the distribution of income and wealth. The central focus is on ways in which different groups and coalitions affect, and are affected by, democratic distributive politics. This course also examines the variation among democracies in the provision of education, social and health insurance, and policies designed to ameliorate inequalities. 1 credit, graded. Ian Shapiro
GLBL 8000, Directed Reading with Senior Fellow  Directed reading or individual project option is designed for qualified students who wish to investigate an area not covered in regular graduate-level courses. The student must be supervised by a senior fellow, who sets the requirements and meets regularly with the student. Usually limited to one per term, this option may involve reading the literature on a topic, attending a lecture or seminar series, and writing a substantial research paper. It is the student’s responsibility to make all the arrangements before the term begins.

GLBL 9800, Directed Reading  Directed reading or individual project option is designed for qualified students who wish to investigate an area not covered in regular graduate-level courses. The student must be supervised by a faculty member, who sets the requirements and meets regularly with the student. Usually limited to one per term, this option may involve reading the literature on a topic, attending a lecture or seminar series, and writing a substantial research paper. It is the student’s responsibility to make all the arrangements before the term begins. By arrangement with faculty.

GLBL 9991, Global Affairs Thesis  The thesis is an optional yearlong research project that is completed in the final academic year of the M.P.P. degree. It is intended for students who wish to make a major policy-oriented research project the culmination of the student’s educational experience in the program. M.P.P. theses involve independently performed research by the student under the supervision of a faculty adviser. Students work with faculty advisers in designing their project and in writing the thesis. See the Appendix for detailed guidelines. Prerequisite: GLBL 9990

SUMMER 2023

GLBL 7000, Global Affairs Internship  Jackson M.P.P. students are required to complete an eight week, preferably ten–twelve weeks, internship during the summer between their first and second year to pursue a professional experience that aligns with their academic and professional goals. Joint-degree students must complete the internship after their first year at the Jackson School. To meet this requirement, students must complete an internship or research project that is policy related and relevant to the global affairs M.P.P. degree. The experience must be at least thirty-five hours per week. On-campus jobs, including research assistant positions, will not be approved. All proposals for summer experiences are submitted to the CDO and reviewed by a Jackson committee. 0 credits, SAT/UNSAT.
Centers, Research, and Programs

THE INTERNATIONAL LEADERSHIP CENTER (ILC)

The International Leadership Center (ILC) develops and supports innovative, effective, and adaptive leaders to address the most acute and complex challenges facing the world. It provides exceptional rising leaders from government, the private sector, and civil society with opportunities to deepen and broaden their knowledge, skills, and networks and to access world-leading research, scholars, and practitioners.

The ILC helps leaders make sense of our world and supports them to make positive changes through sharing experience, creating a space for exploring and learning, and the development of networks.

This unique center—established in the twenty-first year of the twenty-first century—promotes inclusive and international collaboration and is dedicated to harnessing its network for the local and global good.

Fellowships within the ILC

EMERGING CLIMATE LEADERS FELLOWSHIP

The Yale Emerging Climate Leaders Fellowship offers an opportunity for sixteen young climate and clean energy practitioners from across the Global South to broaden their technical skills, deepen their professional networks, and exchange views with top global clean energy and climate change leaders. This new eight-month, three-part initiative is based in Yale’s International Leadership Center, with partnerships throughout the University. For more information about this fellowship, please visit https://jackson.yale.edu/international-leadership-center/climate.

MAURICE R. GREENBERG WORLD FELLOWS PROGRAM

The Maurice R. Greenberg World Fellows Program selects international leaders from different places, backgrounds, and disciplines and who are committed to making the world a better place to spend a term in residence together at Yale to grow intellectually, share knowledge, strengthen skills, and expand networks.

PETRAEUS-RECANATI-KAPLAN (PRK) FELLOWSHIP

The PRK Fellowship enables experienced, carefully selected military special operators to gain a deeper understanding of global affairs; to engage intellectually with different perspectives; to develop relationships with future leaders across the diplomatic, development, defense, and civil society communities; and to expand international networks in order to deliver more comprehensive responses to global challenges. The Fellows study for a one-year Master of Advanced Study in Global Affairs at the Jackson School of Global Affairs.

INTERNATIONAL SECURITY STUDIES (ISS)

International Security Studies is the preeminent research program for advancing the field of security studies, training a vast number of exceptional scholars and practitioners. Through its convening power and unique interdisciplinary approach, ISS brings together
faculty from across the University who work on issues of international security, especially at the nexus of history and political science. ISS supports faculty and student research; awards pre- and post-doctoral fellowships to visiting scholars; and organizes a wide range of conferences, workshops, and other symposia, enriching the Yale community. Founded in 1988, ISS became a part of the Jackson Institute for Global Affairs in October 2021.

**Programs within ISS**

**THE JOHNSON CENTER FOR THE STUDY OF AMERICAN DIPLOMACY**

The Johnson Center for the Study of American Diplomacy was established in 2011, shortly after Dr. Henry A. Kissinger donated his papers to Yale University. The Johnson Center encourages research and teaching on United States foreign policy by drawing on the Kissinger papers as well as other important Yale library collections in this field. The Johnson Center brings prominent statesmen to campus as Kissinger Senior Fellows and hosts Kissinger Visiting Scholars who are researching and writing about the history of American diplomacy. The Center hosts an annual conference and other events that convene practitioners and scholars from around the world to discuss contemporary issues in international affairs.

**THE SCHMIDT PROGRAM ON ARTIFICIAL INTELLIGENCE (AI), EMERGING TECHNOLOGIES, AND NATIONAL POWER**

The Schmidt Program on Artificial Intelligence, Emerging Technologies, and National Power fosters research and teaching that spans the disciplines of computer science, data science, economics, engineering, history, international relations, law, philosophy, physics, and political science.

The program examines how artificial intelligence has the potential to alter the fundamental building blocks of world order. It is a hub for scholars and practitioners working across disciplines on the technological and strategic transformations that are reshaping our world.

**THE MARITIME AND NAVAL STUDIES PROJECT**

The ISS Maritime and Naval Studies Project convenes leading academics and practitioners to analyze lessons from naval history and the precarious state of maritime affairs today.

**THE AMERICA, CHINA, AND EURASIA PROJECT**

This ISS project combines the study of history with current policy analysis to further understand Russian goals vis-à-vis Eurasia, as well as Chinese intentions with regards to the Indo-Pacific region.

**BRADY-JOHNSON PROGRAM IN GRAND STRATEGY AND INTERNATIONAL SECURITY STUDIES**

International Security Studies first launched the Grand Strategy Program in 2000, founded by Professors John Lewis Gaddis and Paul Kennedy, along with the late Diplomat-in-Residence Charles Hill. The program was most recently led by Professor Beverly Gage, and now Michael Brenes serves as the Interim Director.
Michael Brenes is supported by an advisory board of faculty from across Yale, chaired by the ISS Director, Professor Arne Westad. The current GS student cohort consists of twenty-three students, mostly undergraduates with majors ranging from history and economics to philosophy and biology. They study a varied curriculum, emphasizing classic texts in strategy as well as large-scale, long-term strategic challenges of statecraft, politics, and social change.

**ISS Fellowships:**

- Predoctoral Fellowships
- Brady-Johnson Predoctoral Fellowships
- Henry A. Kissinger Predoctoral Fellowships
- Postdoctoral Fellowships
- The Henry Chauncey ’57 Postdoctoral Fellowships
- Henry A. Kissinger Visiting Scholars Program
- The Kenneth R. Miller, Jr. Fellowship
- ISS Marine Corps Fellowship

**THE KERRY INITIATIVE**

The Kerry Initiative is an interdisciplinary program that focuses on pressing global challenges through teaching, research, practicums, conferences, and international dialogue. It was founded in 2017 by former Secretary of State and now President Biden’s Presidential Climate Envoy John Kerry ’66. Through the Kerry Fellows Program, Yale undergraduate, graduate, and professional students collaborate with U.S. policymakers on leading-edge research and high-profile publications for a global audience.

**LEITNER PROGRAM ON EFFECTIVE DEMOCRATIC GOVERNANCE**

The Leitner Program on Effective Democratic Governance looks into what aspects of democracy (or autocracy), law, and social arrangements affect economic growth and other indicators of economic performance and by what mechanisms. The project also aims to understand the dynamics behind better and worse forms of democratic institutions from the standpoint of long-term growth and prosperity, and the demographic, technological, and political forces that push governments towards good and bad forms.

§Hospitalization fees are for single students. Rates are higher for students needing dependent coverage. Hospitalization/Specialty Coverage includes prescription coverage and is required by the University. Students with alternate hospitalization insurance may waive Yale Health coverage.

TUITION REBATE AND FINANCIAL AID REFUND POLICY

Based on the federal regulations governing the return of federal student aid (Title IV) funds for withdrawn students, the rebate and refund of tuition are subject to the following policy.

1. For purposes of determining the refund of Title IV funds, any student who withdraws from the Jackson School of Global Affairs for any reason during the first 60 percent of the term will be subject to a pro rata schedule that will be used to determine the amount of Title IV funds a student has earned at the time of withdrawal. A student who withdraws after the 60 percent point has earned 100 percent of the Title IV funds. In 2022–2023, the last days for refunding Title IV funds will be November 2, 2022, in the fall term and April 1, 2023, in the spring term.

2. For purposes of determining the refund of institutional aid funds and for students who have not received financial aid:
   a. 100 percent of tuition will be rebated for withdrawals that occur on or before the end of the first 10 percent of the term: September 9, 2022, in the fall term and January 26, 2023, in the spring term.
   b. A rebate of one-half (50 percent) of tuition will be granted for withdrawals that occur after the first 10 percent but on or before the last day of the first quarter of the term: September 24, 2022, in the fall term and February 10, 2023, in the spring term.
   c. A rebate of one-quarter (25 percent) of tuition will be granted for withdrawals that occur after the first quarter of a term but on or before the day of midterm: October 24, 2022, in the fall term and March 7, 2023, in the spring term.
   d. Students who withdraw for any reason after midterm will not receive a rebate of any portion of tuition.

3. The death of a student shall cancel charges for tuition as of the date of death, and the bursar will adjust the tuition on a pro rata basis.
4. If the student has received student loans or other forms of financial aid, funds will be returned in the order prescribed by federal regulations; namely, first to Federal Direct Unsubsidized Loans, if any; then to Federal Direct Graduate PLUS Loans; next to any other federal, state, private, or institutional scholarships and loans; and, finally, any remaining balance to the student.

5. Recipients of federal and/or institutional loans who withdraw are required to have an exit interview before leaving Yale. Students leaving Yale receive instructions on completing this process from Yale Student Financial Services.

**STUDENT ACCOUNTS AND BILLING**

Student accounts, billing, and related services are administered through the Office of Student Accounts, located at 246 Church Street. The office’s website is https://student-accounts.yale.edu.

The Student Account is a record of all the direct charges for a student’s Yale education such as tuition, room, board, fees, and other academically related items assessed by offices throughout the University. It is also a record of all payments, financial aid, and other credits applied toward these charges.

Students and student-designated proxies can view all activity posted to their Student Account in real time through the University’s online billing and payment system, YalePay (https://student-accounts.yale.edu/yalepay). At the beginning of each month, email reminders to log in to YalePay to review the Student Account activity are sent to all students at their official Yale email address and to all student-designated YalePay proxies. Payment is due by 4 p.m. Eastern Time on the last day of the month.

Yale does not mail paper bills or generate monthly statements. Students and their authorized proxies can generate their own account statements in YalePay in pdf form to print or save. The statements can be generated by term or for a date range and can be submitted to employers, 401K plans, 529/College Savings Plans, scholarship agencies, or other organizations for documentation of the charges.

Students can grant others proxy access to YalePay to view student account activity, set up payment plans, and make online payments. For more information, see Proxy Access and Authorization (https://student-accounts.yale.edu/understanding-your-bill/your-student-account).

The Office of Student Accounts will impose late fees of $125 per month (up to a total of $375 per term) if any part of the term bill, less Yale-administered loans and scholarships that have been applied for on a timely basis, is not paid when due. Students who have not paid their student account term charges by the due date will also be placed on Financial Hold. The hold will remain until the term charges have been paid in full. While on Financial Hold, the University will not fulfill requests for transcripts or provide diplomas and reserves the right to withhold registration or withdraw the student for financial reasons.

**Payment Options**

There are a variety of options offered for making payments toward a student’s Student Account. Please note:
• All bills must be paid in U.S. currency.
• Yale does not accept credit or debit cards for Student Account payments.
• Payments made to a Student Account in excess of the balance due (net of pending financial aid credits) are not allowed on the Student Account. Yale reserves the right to return any overpayments.

**ONLINE PAYMENTS THROUGH YALEPAY**

Yale’s recommended method of payment is online through YalePay (https://student-accounts.yale.edu/yalepay). Online payments are easy and convenient and can be made by anyone with a U.S. checking or savings account. There is no charge to use this service. Bank information is password-protected and secure, and there is a printable confirmation receipt. Payments are immediately posted to the Student Account, which allows students to make payments 365/24/7 up to 4 p.m. Eastern Time on the due date of the bill, from any location, and avoid late fees.

For those who choose to pay by check, a remittance advice and mailing instructions are available on YalePay. Checks should be made payable to Yale University, in U.S. dollars, and drawn on a U.S. bank. To avoid late fees, please allow for adequate mailing time to ensure that payment is received by 4 p.m. Eastern Time on the due date.

Cash and check payments are also accepted at the Office of Student Accounts, located at 246 Church Street and open Monday through Friday from 8:30 a.m. to 4:30 p.m.

Yale University partners with Flywire, a leading provider of international payment solutions, to provide a fast and secure way to make international payments to a Student Account within YalePay. Students and authorized proxies can initiate international payments from the Make Payment tab in YalePay by selecting “International Payment via Flywire” as the payment method, and then selecting the country from which payment will be made to see available payment methods. International payment via Flywire allows students and authorized proxies to save on bank fees and exchange rates, track the payment online from start to finish, and have access to 24/7 multilingual customer support. For more information on making international payments via Flywire, see International Payments Made Easy at https://student-accounts.yale.edu/yalepay.

A processing charge of $25 will be assessed for payments rejected for any reason by the bank on which they were drawn. In addition, the following penalties may apply if a payment is rejected:
1. If the payment was for a term bill, late fees of $125 per month will be charged for the period the bill was unpaid, as noted above.
2. If the payment was for a term bill to permit registration, the student’s registration may be revoked.
3. If the payment was given to settle an unpaid balance in order to receive a diploma, the University may refer the account to an attorney for collection.

**Yale Payment Plan**

A Yale Payment Plan provides parents and students with the option to pay education expenses monthly. It is designed to relieve the pressure of lump-sum payments by allowing families to spread payments over a period of months without incurring any interest charges. Participation is optional and elected on a term basis. The cost to sign up is $50 per term.
Depending on the date of enrollment, students may be eligible for up to five installments for the fall and spring terms. Payment Plan installments will be automatically deducted on the 5th of each month from the bank account specified when enrolling in the plan. For enrollment deadlines and additional details concerning the Yale Payment Plan, see https://student-accounts.yale.edu/ypp.

**Bill Payment and Pending Military Benefits**

Yale will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other facilities, or the requirement that a student borrow additional funds, on any student because of the student’s inability to meet their financial obligations to the institution, when the delay is due to the delayed disbursement of funding from VA under chapter 31 or 33.

Yale will permit a student to attend or participate in their course of education during the period beginning on the date on which the student provides to Yale a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 and ending on the earlier of the following dates: (1) the date on which payment from VA is made to Yale; (2) ninety days after the date Yale certifies tuition and fees following the receipt of the certificate of eligibility.

**Federal Veterans Education Benefits**

The M.P.P. & M.A.S. programs are approved for Federal Veterans Education benefits under the GI Bill®. To check your eligibility for benefits, visit the website https://benefits.va.gov/gibill. Additional information about military benefits is available on the Yale website at http://finaid.yale.edu/costs-affordability/types-aid/military-benefits-and-financial-aid. To be enrolled, see the Jackson School registrar at jackson.registrar@yale.edu

**DONOR-FUNDED AND NAMED SCHOLARSHIPS**

Scholarship recipients are automatically considered for all merit-based named scholarships. The named scholarships listed below are not in addition to any generic scholarship a student receives in the financial aid award notification but may be matched to a scholarship recipient once the student matriculates.

The School is delighted to recognize the generosity of the donors who have helped make the following scholarships possible:

- M. Albin ’66 and Nancy T. Jubitz Scholarship Fund
- Evren Bilimer ’00 Global Fellowship Fund
- Neal Blue Fellowship Fund
- Joan B. Brady Fellowship Fund
- Amanda and Justin Chang ’89 Jackson Graduate Fellow Fund
- Malcolm and Marion Cromarty Fellowship Fund
- Nelson Cunningham ’80 Fellowship Fund
- Hugo De Neufville Fellowship Fund
- Judge Jean Fox Fellowship Fund
- Gager Family Fellowship
Goolsbee Family Scholarship Fund
Hahn Fellowship Fund
Horgen Family Fellowship Fund
Kaplan, Petraeus Recanati Fellows Program
Pierre Keller Fellowship Fund
Kwok Family Fellowship
Donald Legarde and Marion McNulty Jackson Memorial Graduate Fellowship Fund
Henry R. Luce Fellowships
Diana Luv Chen Fellowship Fund
Robert “Biff” McKellip Jr. ’67 Memorial Scholarship
Nevo-Hacohen Fellowship
Okvuran ’94 Fellowship Fund
Peel Fellowship Fund
Anne Prause Blue Fellowship
Raina Family Fellowship Fund
Margaret Claire Ryan Fellowship Fund
Peter T. Scardino ’67 Fellowship Fund
Michael Scott ’84 Scholarship Fund
Shavel Family Endowment for the Jackson School
David and Karen Sobotka Fellowship Fund
Starlight Fellowship Fund
Sunrise Fund at the Jackson Institute
Daniel P. and Ruth S. Tomasko Fellowship
Ullmo Family Fellowship Fund
Wisdom Fellowship Fund
Administrative Policies

**INTERUPTION OR TEMPORARY SUSPENSION OF UNIVERSITY SERVICES OR PROGRAMS**

Certain events that are beyond the University’s control may cause or require the interruption or temporary suspension of some or all services and programs customarily furnished by the University. These events include, but are not limited to, epidemics or other public health emergencies; storms, floods, earthquakes, or other natural disasters; war, terrorism, rioting, or other acts of violence; loss of power, water, or other utility services; and strikes, work stoppages, or job actions. In the face of such events, the University may, at its sole discretion, provide substitute services and programs, suspend services and programs, or issue appropriate refunds. Such decisions shall be made at the sole discretion of the University.

**PERSONAL CONDUCT STANDARDS**

The Jackson School specifically prohibits the following forms of behavior by graduate students:

**Assault, Coercion, Harassment**

Physical restriction, assault, or any other act of violence or use of physical force against any member of the community, or any act that threatens the use of violence or physical force.

**Violation of Yale University Rules/Functions**

- Disruption of a legitimate function or activity of the University community, including disruption of classes and meetings, blocking entrances and exits to University buildings, unauthorized occupation of any space on the Yale campus, or preventing the free expression or dissemination of ideas.
- Refusal to comply with the direction of University Police Officers or other University officials, including members of faculty, acting in the performance of their duties.
- Misuse, alteration, or fabrication of University credentials or documents, such as an identification card, academic transcript, including grade list submitted by teaching fellows.
- Misrepresentation in applying for admission or financial aid.
- Misrepresentation or lying during a formal or informal inquiry by School or University officials. If the Jackson School Regulations and Disciplinary Review Committee has found that the student purposefully misled the committee during its deliberations, the committee may consider that factor as grounds for imposing a more severe penalty.
- Recording course lectures without explicit permission of the instructor, or selling or distributing for commercial purposes notes, transcriptions, or outlines of class lectures, or any course materials, in any course of instruction.
- Violation of University rules for using information technology services and facilities, including computers, the University network, software systems, and electronic mail.
• Unauthorized use of University services, equipment, or facilities, such as telephones and photocopying equipment, or letterhead.
• Misuse of the materials or facilities of the University libraries.
• Theft or misuse of funds, or willful damage to University property.
• Interference with the proper operation of safety or security devices, including fire alarms, electronic gates, or sprinkler systems.
• Use of tobacco products on any location on campus, including outdoor spaces. Yale is a tobacco-free institution.
• Violation of University policies for the safeguarding of children and youth on campus whereby minors are put at risk due to action or inaction.
• Presence in University buildings or on University property at times or places where such presence is prohibited, as, for example, when a building, facility, or room is locked and permission to enter has not been given.
• Possession or use of explosives or weapons on University property.
• Unlawful manufacture, possession, use, or distribution of drugs or alcohol, including serving underage minors, on University property or as part of any University activity. Yale is a drug-free campus.

DISCIPLINARY POLICIES AND PROCEDURES

Emergency Suspension
The dean of the Jackson School of Global Affairs, or a delegate of the dean, may place a student on an emergency suspension from residence or academic status when (1) the student has been arrested for or charged with serious criminal behavior by law enforcement authorities; or (2) the student allegedly violated a disciplinary rule of the Jackson School of Global Affairs and the student’s presence on campus poses a significant risk to the safety or security of members of the community.

Following an individualized risk and safety analysis, the student will be notified in writing of the emergency suspension. A student who is notified of an emergency suspension will have twenty-four hours to respond to the notice. The emergency suspension will not be imposed prior to an opportunity for the student to respond unless circumstances warrant immediate action for the safety and security of members of the community. In such cases, the student will have an opportunity to respond after the emergency suspension has been imposed.

When a student in the Jackson School of Global Affairs is placed on an emergency suspension, the matter will be referred for disciplinary action in accordance with school policy. Such a suspension may remain in effect until disciplinary action has been taken with regard to the student; however, it may be lifted earlier by action of the dean or dean’s delegate, or by the disciplinary committee after a preliminary review.

Penalties
Jackson School Regulations and Disciplinary Review Committee considers instances of academic infractions and other serious violations by Jackson graduate students against the School and University communities. Alleged violations of any of the above Personal Conduct and Academic Integrity Standards will be referred to Jackson School
Regulations and Disciplinary Review Committee. Procedures of the Committee may be obtained on the Jackson School website: https://jackson.yale.edu.

A separate process and procedures apply to reports pertaining to sexual misconduct and violations of the Teacher-Student Consensual Relations Policy (please see Resources on Sexual Misconduct in the chapter Yale University Resources and Services). Another policy also applies to reports pertaining to discrimination and/or harassment, as defined on the Yale University website (https://student-dhr.yale.edu/policies-definitions). In some cases, conduct reported as discrimination and harassment may violate the Personal Conduct Standards, and students may be referred to the Jackson School Regulations and Disciplinary Review Committee. Students found responsible for violating the Personal Conduct and Academic Integrity Standards may be subject to penalties, including, but not limited to, one or more of the following:

- Reprimand
- Probation
- Suspension
- Dismissal
- Fines
- Restitution
- Restriction

A student who has petitioned for a degree will not receive the degree while charges are pending or while serving a suspension. A student dismissed for academic misconduct will not receive a degree from the Jackson School regardless of requirements fulfilled before the infraction occurred. The Jackson School reserves the right to impose fines as appropriate, in addition to requiring payment for costs resulting from or associated with the offenses. In addition to imposing these penalties for offenses subject to disciplinary action, the University may refer students for prosecution, and students found guilty of unlawful possession, use, or distribution of illicit drugs or alcohol on University property or as part of any University activity may be required to complete an appropriate rehabilitation program.

COMPLAINTS

Complaints of discrimination and harassment (https://student-dhr.yale.edu/policies-definitions) should be brought to either the discrimination and harassment resource coordinators (https://student-dhr.yale.edu/deans-designees) or the Office of Institutional Equity and Access (https://oiea.yale.edu) for support, investigation, and resolution (https://student-dhr.yale.edu/complaint-resolution).

OFFICE OF INSTITUTIONAL EQUITY AND ACCESS

Students who believe that a student, faculty member, or staff member has engaged in discrimination or harassment other than gender discrimination or sexual misconduct may report their concerns to the Office of Institutional Equity and Access, a University-wide office that assists with dispute resolution and investigates reports of discrimination and harassment. For additional information, see https://studentdhr.yale.edu/complaint-resolution. Complaints of sexual misconduct, which includes sexual harassment and
sexual assault, may be brought to a Title IX coordinator or to the University-Wide Committee on Sexual Misconduct (UWC). For more information on the University’s Title IX coordinators or the UWC, please see Resources on Sexual Misconduct under Yale University Resources and Services.

**FREEDOM OF EXPRESSION**

The Yale Jackson School is committed to the protection of free inquiry and expression in the classroom and throughout the School community. In this, the School reflects the University’s commitment to and policy on freedom of expression as stated in the Woodward Report (Report of the Committee on Freedom of Expression at Yale, 1974) in part:

The primary function of a university is to discover and disseminate knowledge by means of research and teaching. To fulfill this function a free interchange of ideas is necessary not only within its walls but with the world beyond as well. It follows that the university must do everything possible to ensure within it the fullest degree of intellectual freedom. The history of intellectual growth and discovery clearly demonstrates the need for unfettered freedom, the right to think the unthinkable, discuss the unmentionable, and challenge the unchallengeable. To curtail free expression strikes twice at intellectual freedom, for whoever deprives another of the right to state unpopular views necessarily also deprives others of the right to listen to those views. We take a chance, as the First Amendment takes a chance, when we commit ourselves to the idea that the results of free expression are to the general benefit in the long run, however unpleasant they may appear at the time. The validity of such a belief cannot be demonstrated conclusively. It is a belief of recent historical development, even within universities, one embodied in American constitutional doctrine but not widely shared outside the academic world, and denied in theory and in practice by much of the world most of the time.

Because few other institutions in our society have the same central function, few assign such high priority to freedom of expression. Few are expected to. Because no other kind of institution combines the discovery and dissemination of basic knowledge with teaching, none confronts quite the same problems as a university. For if a university is a place for knowledge, it is also a special kind of small society. Yet it is not primarily a fellowship, a club, a circle of friends, a replica of the civil society outside it. Without sacrificing its central purpose, it cannot make its primary and dominant value the fostering of friendship, solidarity, harmony, civility, or mutual respect. To be sure, these are important values; other institutions may properly assign them the highest, and not merely a subordinate, priority; and a good university will seek and may in some significant measure attain these ends. But it will never let these values, important as they are, override its central purpose. We value freedom of expression precisely because it provides a forum for the new, the provocative, the disturbing, and the unorthodox. Free speech is a barrier to the tyranny of authoritarian or even majority opinion as to the rightness or wrongness of particular doctrines or thoughts.
If the priority assigned to free expression by the nature of a university is to be maintained in practice, clearly the responsibility for maintaining that priority rests with its members. By voluntarily taking up membership in a university and thereby asserting a claim to its rights and privileges, members also acknowledge the existence of certain obligations upon themselves and their fellows. Above all, every member of the university has an obligation to permit free expression in the university. No member has a right to prevent such expression. Every official of the university, moreover, has a special obligation to foster free expression and to ensure that it is not obstructed. The strength of these obligations, and the willingness to respect and comply with them, probably depend less on the expectation of punishment for violation than they do on the presence of a widely shared belief in the primacy of free expression. Nonetheless, we believe that the positive obligation to protect and respect free expression shared by all members of the university should be enforced by appropriate formal sanctions, because obstruction of such expression threatens the central function of the university. We further believe that such sanctions should be made explicit, so that potential violators will be aware of the consequences of their intended acts.

In addition to the university’s primary obligation to protect free expression there are also ethical responsibilities assumed by each member of the university community, along with the right to enjoy free expression. Though these are much more difficult to state clearly, they are of great importance. If freedom of expression is to serve its purpose and thus the purpose of the university, it should seek to enhance understanding. Shock, hurt, and anger are not consequences to be weighed lightly. No member of the community with a decent respect for others should use, or encourage others to use, slurs and epithets intended to discredit another’s race, ethnic group, religion, or sex. It may sometimes be necessary in a university for civility and mutual respect to be superseded by the need to guarantee free expression. The values superseded are nevertheless important, and every member of the university community should consider them in exercising the fundamental right to free expression.

We have considered the opposing argument that behavior which violates these social and ethical considerations should be made subject to formal sanctions, and the argument that such behavior entitles others to prevent speech they might regard as offensive. Our conviction that the central purpose of the university is to foster the free access of knowledge compels us to reject both of these arguments. They assert a right to prevent free expression. They rest upon the assumption that speech can be suppressed by anyone who deems it false or offensive. They deny what Justice Holmes termed “freedom for the thought that we hate.” They make the majority, or any willful minority, the arbiters of truth for all. If expression may be prevented, censored, or punished, because of its content or because of the motives attributed to those who promote it, then it is no longer free. It will be subordinated to other values that we believe to be of lower priority in a university.

The conclusions we draw, then, are these: even when some members of the university community fail to meet their social and ethical responsibilities, the paramount obligation of the university is to protect their right to free expression. This obligation can
and should be enforced by appropriate formal sanctions.

If the university’s overriding commitment to free expression is to be sustained, secondary social and ethical responsibilities must be left to the informal processes of suasion, example, and argument.

For the full report, see https://studentlife.yale.edu/guidance-regarding-free-expression-and-peaceable-assembly-students-yale.

FIREARMS AND WEAPONS

No illegal weapons, toxic substances, or illegal substances are allowed on Jackson School property or at school events.

LEAVES OF ABSENCE

Students are expected to complete the M.P.P. program in two consecutive academic years and the M.A.S. program in one academic year. Students who wish or need to interrupt their study temporarily may request a leave of absence. There are three types of leave—personal, medical, and parental—all of which are described below. Request for a leave of absence for the purpose of employment (e.g., to continue a summer internship full-time during the following year) is discouraged.

All leaves of absence must be approved by the assistant dean for graduate education. Students who wish to take a leave of absence must petition in writing no later than the last day of classes in the term in question. Medical leaves also require the recommendation of a physician, as detailed below. The normal duration of a leave of absence is either one term or one year; with the approval of the assistant dean for graduate education, extension of a leave may be approved for one additional term or year. A student who has been on leave for a total of four terms or two years must return to resume their degree program in the subsequent term or be dismissed from that program. Students who are dismissed from a degree program for failure to return after exhausting the maximum leave time must reapply to that program should they wish to return to complete their degree at a later date.

International students who apply for a leave of absence must consult with OISS concerning their visa status.

Students on leave of absence are not eligible for financial aid, including loans. Students who have received loans or other financial aid must notify the financial aid office about the leave of absence, as loans are only available to enrolled students. They should also consult the University Student Loan Office (246 Church Street) so that they have a full understanding of the grace period and repayment provisions for federal loans. In most cases, students must begin repaying loans during a leave of absence. Upon re-enrolling, students will be eligible to defer loan repayment until they graduate or leave school.

Students on leave of absence are not eligible for the use of any University facilities normally available to enrolled students.

Students on leave of absence may continue to be enrolled in Yale Health by purchasing coverage through the Student Affiliate Coverage plan. In order to secure continuous
coverage from Yale Health, enrollment in this plan must be requested prior to the begin-
ning of the term in which the student will be on leave or, if the leave commences during
the term, within thirty days of the date the registrar was informed of the leave. Coverage
is not automatic; enrollment forms are available from the Member Services department
of Yale Health, 203.432.0246.

Students on leave of absence do not have to file a formal application for readmission,
except under the conditions stated above. However, they must notify the Jackson School
registrar in writing of their intention to return. Such notification should be given at least
six weeks prior to the end of the approved leave.

Students who fail to register for the term following the end of the approved leave
will be considered to have withdrawn from the program thus it is essential that students
complete the required LOA/Withdrawal form to ensure their change of status has been
formally processed.

Personal Leave of Absence

A student who wishes or needs to interrupt study temporarily because of personal exi-
gencies may request a personal leave of absence. The general policies governing leaves
of absence are described above. A student who is current with degree requirements is
eligible for a personal leave after satisfactory completion of at least one term of study.
Personal leaves cannot be granted retroactively and normally will not be approved after
the tenth day of a term.

To request a personal leave of absence, the student must request a leave by submitting
an online form, available on the Jackson School website, before the beginning of the term
for which the leave is requested, explaining the reasons for the proposed leave and stating
both the proposed start and end dates of the leave and the address where the student can
be reached during the period of the leave. If the assistant dean for graduate education and
assistant dean for student affairs find the student to be eligible, the leave will be granted.
In any case, the student will be informed in writing of the action taken. Students who do
not apply for a leave of absence, or who apply for a leave but are not granted one, and who
do not register for any term, will be considered to have withdrawn from the program.

Medical Leave of Absence

A student who must interrupt study temporarily because of illness or injury may be
granted a medical leave of absence with the approval of the assistant dean for graduate
education and assistant dean for student affairs and on the written recommendation
of a physician on the staff of Yale Health. The general policies governing all leaves of
absence are described above. A student who is making satisfactory progress toward
degree requirements is eligible for a medical leave any time after matriculation. Forms
for requesting a medical leave of absence are available on the Jackson School of Global
Affairs website. Final decisions concerning requests for medical leaves will be commu-
nicated to students in writing.

The Jackson School of Global Affairs reserves the right to place a student on a
mandatory medical leave of absence when, on recommendation of the director of Yale
Health or the chief of the Mental Health and Counseling department, the dean of the
School determines that, because of a medical condition, the student is a danger to self or
others, the student has seriously disrupted others in the student’s residential or academic communities, or the student has refused to cooperate with efforts deemed necessary by Yale Health and the dean to make such determinations. Each case will be assessed individually based on all relevant factors, including, but not limited to, the level of risk presented and the availability of reasonable modifications. Reasonable modifications do not include fundamental alterations to the student’s academic, residential, or other relevant communities or programs; in addition, reasonable modifications do not include those that unduly burden University resources.

An appeal of such a leave must be made in writing to the dean of the Jackson School no later than seven days from the effective date of the leave.

An incident that gives rise to voluntary or mandatory leave of absence may also result in subsequent disciplinary action.

Students who are placed on a medical leave during any term will have their tuition adjusted according to the same schedule used for withdrawals (please see Tuition Rebate and Refund Policy in the chapter Tuition and Fees). Before re-registering, a student on medical leave must secure written permission to return from a Yale Health physician.

**Leave of Absence for Parental Responsibilities**

A student who wishes or needs to interrupt study temporarily for reasons of pregnancy or child care may be granted a leave of absence for parental responsibilities. Any student planning to have, adopt, or care for a child is encouraged to meet with the assistant dean for graduate education or assistant dean for student affairs to discuss a leave of absence and other possibilities such as short-term arrangements not requiring a leave. For many students, short-term arrangements rather than a leave of absence are possible. The general policies governing all leaves of absence are described above. A student who is making satisfactory progress toward degree requirements is eligible for a parental leave of absence any time after matriculation.

Students living in University housing units are encouraged to review their housing contract and the related policies of Yale Housing before applying to the School for a parental leave of absence. Students granted parental leave may continue to reside in University housing to the end of the academic term for which the leave was first granted, but no longer.

Students who wish to suspend their academic responsibilities because of the birth or adoption of a child should meet with the administrative director, who will help accommodate the students’ program responsibilities when the birth or adoption occurs.

**WITHDRAWAL AND READMISSION**

Students who wish to withdraw from their program should confer with the assistant dean for graduate education regarding withdrawal. They will determine the effective date of the withdrawal. The University identification card must be submitted with the approved withdrawal form for withdrawal in good standing to be recorded.

Students who do not register for any fall or spring term, and for whom a leave of absence has not been approved, are considered to have withdrawn from the School. Students who discontinue their program of study during the academic year without submitting an approved withdrawal form and the University identification card will be liable for the tuition charge. Health service policies related to withdrawal and readmission are
described under Health Services: Eligibility Changes.

A student who has voluntarily withdrawn from in good standing and who wishes to restart study at a later date must apply for readmission. Neither readmission nor financial aid is guaranteed to students who withdraw.

**U.S. MILITARY LEAVE READMISSIONS POLICY**

Students who wish or need to interrupt their studies to perform U.S. military service are subject to a separate U.S. military leave readmissions policy. In the event a student withdraws or takes a leave of absence from The Jackson School of Global Affairs to serve in the U.S. military, the student will be entitled to guaranteed readmission under the following conditions:

1. The student must have served in the U.S. Armed Forces for a period of more than thirty consecutive days;
2. The student must give advance written or oral notice of such service to the assistant dean for graduate education. In providing the advance notice the student does not need to indicate an intent to return. This advance notice need not come directly from the student, but rather, can be made by an appropriate officer of the U.S. Armed Forces or official of the U.S. Department of Defense. Notice is not required if precluded by military necessity. In all cases, this notice requirement can be fulfilled at the time the student seeks readmission, by submitting an attestation that the student performed the service.
3. The student must not be away from the Jackson School of Global Affairs to perform U.S. military service for a period exceeding five years (this includes all previous absences to perform U.S. military service but does not include any initial period of obligated service). If a student's time away from the School to perform U.S. military service exceeds five years because the student is unable to obtain release orders through no fault of the student or the student was ordered to or retained on active duty, the student should contact the administrative director to determine if the student remains eligible for guaranteed readmission.
4. The student must notify the Jackson School of Global Affairs within three years of the end of the U.S. military service of the intention to return. However, a student who is hospitalized or recovering from an illness or injury incurred in or aggravated during the U.S. military service has up until two years after recovering from the illness or injury to notify the School of the intent to return.
5. The student cannot have received a dishonorable or bad conduct discharge or have been sentenced in a court-martial.

A student who meets all of these conditions will be readmitted for the next term, unless the student requests a later date of readmission. Any student who fails to meet one of these requirements may still be readmitted under the general readmission policy but is not guaranteed readmission.

Upon returning to the Jackson School of Global Affairs, the student will resume education without repeating completed course work for courses interrupted by U.S. military service. The student will have the same enrolled status last held and with the same academic standing. For the first academic year in which the student returns, the student
will be charged the tuition and fees that would have been assessed for the academic year in which the student left the institution. The Jackson School of Global Affairs may charge up to the amount of tuition and fees other students are assessed, however, if veteran’s education benefits will cover the difference between the amounts currently charged other students and the amount charged for the academic year in which the student left.

In the case of a student who is not prepared to resume studies with the same academic status at the same point at which the student left or who will not be able to complete the program of study, the Jackson School of Global Affairs will undertake reasonable efforts to help the student become prepared. If after reasonable efforts, the School determines that the student remains unprepared or will be unable to complete the program or after the School determines that there are no reasonable efforts it can take, the School may deny the student readmission.

UNIVERSITY AND SCHOOL NAMES AND LOGOS

The Yale University and Jackson School of Global Affairs names, logotypes, and seals (in all formats) are protected by copyright law. Faculty, students, and staff representing the Jackson School must use the School’s established graphic standards. Any use of the name or logotype in the title or caption of a publication or organization, any use of the above-mentioned on stationery or business cards, or their use on any item or product to be distributed or sold by an individual or an organization must be approved by the Jackson School Office of Communications and is subject to the requirements and restrictions of the Yale Trademark Licensing Program. For further information contact Jackson’s Office of Communications.

POLICY ON USE OF PHOTOS AND VIDEOS AND AUDIO RECORDINGS

Photographs may be taken, and video or audiotapes made by Jackson School staff or other authorized members of the Jackson School or University community during Jackson School and Yale University events and activities (including during alumni events). By attending or participating in classes and in other Jackson School and University activities, those in attendance agree to the University’s use and distribution of their image and/or voice in photographs, audio, and video capture, or in electronic reproductions of such classes and activities. These images, recordings, or excerpts may be included, for example, in Jackson School and Yale University websites, publications, and online courses, and otherwise used to support the University’s mission, subject to University policies and procedures.
Yale University Resources and Services

A GLOBAL UNIVERSITY

Global engagement is core to Yale's mission as one of the world's great universities. Yale aspires to:

- Be the university that best prepares students for global citizenship and leadership
- Be a worldwide research leader on matters of global import
- Be the university with the most effective global networks

Yale's engagement beyond the United States dates from its earliest years. The University remains committed to attracting the best and brightest from around the world by offering generous international financial aid packages, conducting programs that introduce and acculturate international students to Yale, and fostering a vibrant campus community.

Yale's globalization is guided by the vice president for global strategy, who is responsible for ensuring that Yale's broader global initiatives serve its academic goals and priorities, and for enhancing Yale's international presence as a leader in liberal arts education and as a world-class research institution. The vice president works closely with academic colleagues in all of the University's schools and provides support and strategic guidance to the many international programs and activities undertaken by Yale faculty, students, and staff.

Teaching and research at Yale benefit from the many collaborations underway with the University's international partners and the global networks forged by Yale across the globe. International activities across all Yale schools include curricular initiatives that enrich classroom experiences from in-depth study of a particular country to broader comparative studies; faculty research and practice on matters of international importance; the development of online courses and expansion of distance learning; and the many fellowships, internships, and opportunities for international collaborative research projects on campus and abroad. Together these efforts serve to enhance Yale's global educational impact and are encompassed in the University's global strategy.

The Office of International Affairs (https://world.yale.edu/oia) provides administrative support for the international activities of all schools, departments, centers, and organizations at Yale; promotes Yale and its faculty to international audiences; and works to increase the visibility of Yale's international activities around the globe.

The Office of International Students and Scholars (https://oiss.yale.edu) hosts orientation programs and social activities for the University's international community and is a resource for international students and scholars on immigration matters and other aspects of acclimating to life at Yale.

The Yale Alumni Association (https://alumni.yale.edu) provides a channel for communication between the alumni and the University and supports alumni organizations and programs around the world.

Additional information may be found on the “Yale and the World” website (https://world.yale.edu), including resources for those conducting international activities abroad and links to international initiatives across the University.
HEALTH SERVICES

The Yale Health Center is located on campus at 55 Lock Street. The center is home to Yale Health, a not-for-profit, physician-led health coverage option that offers a wide variety of health care services for students and other members of the Yale community. Services include student health, gynecology, mental health, pediatrics, pharmacy, blood draw, radiology, a seventeen-bed inpatient care unit, a round-the-clock acute care clinic, and specialty services such as allergy, dermatology, orthopedics, and a travel clinic. Yale Health coordinates and provides payment for the services provided at the Yale Health Center, as well as for emergency treatment, off-site specialty services, inpatient hospital care, and other ancillary services. Yale Health's services are detailed in the Yale Health Student Handbook, available through the Yale Health Member Services Department, 203.432.0246, or online at https://yalehealth.yale.edu/coverage/student-coverage.

Eligibility for Services

All full-time Yale degree-candidate students who are paying at least half tuition are enrolled automatically for Yale Health Basic Coverage. Yale Health Basic Coverage is offered at no charge and includes preventive health and medical services in the departments of Student Health, Gynecology, Student Wellness, and Mental Health & Counseling. In addition, treatment for urgent medical problems can be obtained twenty-four hours a day through Acute Care.

Students on leave of absence, on extended study and paying less than half tuition, or enrolled per course credit are not eligible for Yale Health Basic Coverage but may enroll in Yale Health Student Affiliate Coverage. Students enrolled in the Division of Special Registration as nondegree special students or visiting scholars are not eligible for Yale Health Basic Coverage but may enroll in the Yale Health Billed Associates Plan and pay a monthly fee. Associates must register for a minimum of one term within the first thirty days of affiliation with the University.

Students not eligible for Yale Health Basic Coverage may also use the services on a fee-for-service basis. Students who wish to be seen fee-for-service must register with the Member Services Department. Enrollment applications for the Yale Health Student Affiliate Coverage, Billed Associates Plan, or Fee-for-Service Program are available from the Member Services Department.

All students who purchase Yale Health Hospitalization/Specialty Coverage (see below) are welcome to use specialty and ancillary services at Yale Health Center. Upon referral, Yale Health will cover the cost of specialty and ancillary services for these students. Students with an alternate insurance plan should seek specialty services from a provider who accepts their alternate insurance.

Health Coverage Enrollment

The University also requires all students eligible for Yale Health Basic Coverage to have adequate hospital insurance coverage. Students may choose Yale Health Hospitalization/Specialty Coverage or elect to waive the plan if they have other hospitalization coverage, such as coverage through a spouse or parent. The waiver must be renewed annually, and it is the student’s responsibility to confirm receipt of the waiver by the University’s deadlines noted below.
Yale Health Hospitalization/Specialty Coverage

For a detailed explanation of this plan, which includes coverage for prescriptions, see the Yale Health Student Handbook, available online at https://yalehealth.yale.edu/coverage/student-coverage.

Students are automatically enrolled and charged a fee each term on their Student Financial Services bill for Yale Health Hospitalization/Specialty Coverage. Students with no break in coverage who are enrolled during both the fall and spring terms are billed each term and are covered from August 1 through July 31. For students entering Yale for the first time, readmitted students, and students returning from a leave of absence who have not been covered during their leave, Yale Health Hospitalization/Specialty Coverage begins on the day the dormitories officially open. A student who is enrolled for the fall term only is covered for services through January 31; a student enrolled for the spring term only is covered for services through July 31.

Waiving Yale Health Hospitalization/Specialty Coverage Students are permitted to waive Yale Health Hospitalization/Specialty Coverage by completing an online waiver form at https://yhpstudentwaiver.yale.edu that demonstrates proof of alternate coverage. It is the student’s responsibility to report any changes in alternate insurance coverage to the Member Services Department within thirty days. Students are encouraged to review their present coverage and compare its benefits to those available under Yale Health. The waiver form must be filed annually and must be received by September 15 for the full year or fall term or by January 31 for the spring term only.

Revoking the waiver Students who waive Yale Health Hospitalization/Specialty Coverage but later wish to be covered must complete and send a form voiding their waiver to the Member Services Department by September 15 for the full year or fall term, or by January 31 for the spring term only. Students who wish to revoke their waiver during the term may do so, provided they show proof of loss of the alternate insurance plan and enroll within thirty days of the loss of this coverage. Yale Health fees will not be prorated.

Yale Health Student Dependent Plans

A student may enroll the student’s lawfully married spouse or civil union partner and/or legally dependent child(ren) under the age of twenty-six in one of three student dependent plans: Student + Spouse, Student + Child/Children, or Student Family Plan. These plans include services described in both Yale Health Basic Coverage and Yale Health Hospitalization/Specialty Coverage. Coverage is not automatic, and enrollment is by application. Applications are available from the Member Services Department or can be downloaded from the website (https://yalehealth.yale.edu/resources/forms) and must be renewed annually. Applications must be received by September 15 for full-year or fall-term coverage, or by January 31 for spring-term coverage only.

Yale Health Student Affiliate Coverage

Students on leave of absence, on extended study, or enrolled per course per credit; students paying less than half tuition; students enrolled in the EMBA program; students enrolled in the Broad Center M.M.S. program; students enrolled in the PA Online program; and students enrolled in the EMPH program may enroll in Yale Health Student
Affiliate Coverage, which includes services described in both Yale Health Basic and Yale Health Hospitalization/Specialty Coverage. Applications are available from the Member Services Department or can be downloaded from the website (https://yalehealth.yale.edu/resources/forms) and must be received by September 15 for full-year or fall-term coverage, or by January 31 for spring-term coverage only.

**Eligibility Changes**

**Withdrawal** A student who withdraws from the University during the first fifteen days of the term will be refunded the fee paid for Yale Health Hospitalization/Specialty Coverage. The student will not be eligible for any Yale Health benefits, and the student’s Yale Health membership will be terminated retroactive to the beginning of the term. The medical record will be reviewed, and any services rendered and/or claims paid will be billed to the student on a fee-for-service basis. Assistance with identifying and locating alternative sources of medical care may be available from the Care Management Department at Yale Health. At all other times, a student who withdraws from the University will be covered by Yale Health for thirty days following the date of withdrawal. Fees will not be prorated or refunded. Students who withdraw are not eligible to enroll in Yale Health Student Affiliate Coverage. Regardless of enrollment in Yale Health Hospitalization/Specialty Coverage, students who withdraw will have access to services available under Yale Health Basic Coverage (including Student Health, Athletic Medicine, Mental Health & Counseling, and Care Management) during these thirty days to the extent necessary for a coordinated transition of care.

**Leaves of absence** Students who are granted a leave of absence are eligible to purchase Yale Health Student Affiliate Coverage for the term(s) of the leave. If the leave occurs on or before the first day of classes, Yale Health Hospitalization/Specialty Coverage will end retroactive to the start of the coverage period for the term. If the leave occurs anytime after the first day of classes, Yale Health Hospitalization/Specialty Coverage will end on the day the registrar is notified of the leave. In either case, students may enroll in Yale Health Student Affiliate Coverage. Students must enroll in Affiliate Coverage prior to the beginning of the term unless the registrar is notified after the first day of classes, in which case, the coverage must be purchased within thirty days of the date the registrar was notified. Fees paid for Yale Health Hospitalization/Specialty Coverage will be applied toward the cost of Affiliate Coverage. Coverage is not automatic, and enrollment forms are available at the Member Services Department or can be downloaded from the website (https://yalehealth.yale.edu/resources/forms). Fees will not be prorated or refunded.

**Extended study or reduced tuition** Students who are granted extended study status or pay less than half tuition are not eligible for Yale Health Hospitalization/Specialty Coverage. They may purchase Yale Health Student Affiliate Coverage during the term(s) of extended study. This plan includes services described in both Yale Health Basic and Yale Health Hospitalization/Specialty Coverage. Coverage is not automatic, and enrollment forms are available at the Member Services Department or can be downloaded from the website (https://yalehealth.yale.edu/resources/forms). Students must complete an enrollment application for the plan prior to September 15 for the full year or fall term, or by January 31 for the spring term only.
Per course per credit  Students who are enrolled per course per credit are not eligible for Yale Health Hospitalization/Specialty Coverage. They may purchase Yale Health Student Affiliate Coverage during the term(s) of per course per credit enrollment. This plan includes services described in both Yale Health Basic and Yale Health Hospitalization/Specialty Coverage. Coverage is not automatic, and enrollment forms are available at the Member Services Department or can be downloaded from the website (https://yalehealth.yale.edu/resources/forms). Students must complete an enrollment application for the plan prior to September 15 for the full year or fall term, or by January 31 for the spring term only.

For a full description of the services and benefits provided by Yale Health, please refer to the Yale Health Student Handbook, available from the Member Services Department, 203.432.0246, 55 Lock Street, PO Box 208237, New Haven CT 06520-8237.

Required Immunizations

Proof of vaccination is a pre-entrance requirement determined by the Connecticut State Department of Public Health. Students who are not compliant with this state regulation will not be permitted to register for classes or move into the dormitories for the fall term, 2022. Please access the Incoming Student Vaccination Record form for graduate and professional students at https://yalehealth.yale.edu/new-graduate-and-professional-student-forms. Connecticut state regulation requires that this form be completed and signed, for each student, by a physician, nurse practitioner, or physician’s assistant. The form must be completed, independent of any and all health insurance elections or coverage chosen. Once the form has been completed, the information must be entered into the Yale Vaccine Portal (available after June 20), and all supporting documents must be uploaded to http://yale.medicatconnect.com. The final deadline is July 15.

COVID-19  All students are required to provide proof of completed immunization against COVID-19 and obtain a booster shot within fourteen days of eligibility. Antibody titers or evidence of previous infection are not accepted as proof of immunity. Currently approved vaccines include Pfizer-BioNTech (two doses), Moderna (two doses), and Janssen/Johnson & Johnson (one dose). International vaccines that are authorized for emergency use by the World Health Organization will also be accepted by Yale as meeting the COVID-19 vaccination requirement. Yale Health’s website will be updated as new vaccines are reviewed (https://yalehealth.yale.edu/covid-19-vaccination-faq-international-students-and-scholars). International students who do not have access to appropriately-timed WHO or FDA approved vaccination will be provided with free vaccination upon arrival on campus by special arrangement. Students who are not compliant with this vaccine requirement will not be permitted to register for classes or move into the dormitories for the fall term, 2022.

Influenza  All students are required to have flu vaccination in the fall when it is made available to them by Yale Health.

Measles, mumps, rubella, and varicella  All students are required to provide proof of immunization against measles (rubeola), mumps, German measles (rubella), and varicella. Connecticut state regulation requires two doses of measles vaccine, two doses
of mumps vaccine, two doses of rubella vaccine, and two doses of varicella vaccine. The first dose must have been given after the student’s first birthday; the second dose must have been given at least twenty-eight (28) days after the first dose. If dates of vaccination are not available, titer results (blood test) demonstrating immunity may be substituted for proof of vaccination. The cost for all vaccinations and/or titers rests with the student, as these vaccinations are considered to be a pre-entrance requirement by the Connecticut State Department of Public Health. Students who are not compliant with this state regulation will not be permitted to register for classes or move into the dormitories for the fall term, 2022.

**Quadrivalent meningitis**  All students living in on-campus dormitory facilities must be vaccinated against meningitis. The only vaccines that will be accepted in satisfaction of the meningitis vaccination requirement are ACWY Vax, Menveo, Nimenrix, Menactra, Mencevax, and Menomune. The vaccine must have been given within five years of the first day of classes at Yale. Students who are not compliant with this state regulation will not be permitted to register for classes or move into the dormitories for the fall term, 2022. The cost for all vaccinations and/or titers rests with the student, as these vaccinations are considered to be a pre-entrance requirement by the Connecticut State Department of Public Health. Please note that the State of Connecticut does not require this vaccine for students who intend to reside on campus and are over the age of twenty-nine.

**TB screening**  The University requires tuberculosis screening for all incoming students who have lived or traveled outside of the United States within the past year.

**Hepatitis B series**  The University recommends that incoming students receive a series of three Hepatitis B vaccinations. Students may consult their health care provider for further information.

**STUDENT ACCESSIBILITY SERVICES**

Student Accessibility Services (SAS) engages in an interactive process with Yale students with disabilities, including graduate and professional school students, to determine reasonable and appropriate accommodations on a case-by-case, course-by-course basis. Students may initiate this process by requesting accommodations through the online registration form available at: https://yale-accommodate.symplicity.com/public_accommodation.

Registration with SAS is kept private, and faculty/staff are notified of approved accommodations on a need-to-know basis only. Students should upload supporting documentation regarding their condition and request for accommodations through the online registration form. SAS’s documentation guidelines are available at https://sas.yale.edu/get-started/documentation-guidelines.

SAS collaborates with students, faculty, and staff to coordinate approved academic and residential accommodations. SAS also works with students with sporadic and temporary disabilities as well. At any time during a term, students with a newly diagnosed disability or injury requiring accommodations should register with SAS following the above instructions. More information can be found at https://sas.yale.edu. Contact SAS at sas@yale.edu or by phone at 203.432.2324.
HOUSING

The Yale Housing Office has dormitory and apartment units available for graduate and professional students. Dormitories are single-occupancy and two-bedroom units of varying sizes and prices. They are located across the campus, from Edward S. Harkness Memorial Hall, serving the medical campus, to Helen Hadley Hall and the newly built 272 Elm Street, serving the central/science campus. Unfurnished apartments consisting of efficiencies and one-, two-, and three-bedroom apartments for singles and families are also available. Family housing is available in Whitehall and Esplanade Apartments. The Housing website (https://housing.yale.edu) is the venue for graduate housing information and includes dates, procedures, facility descriptions, floor plans, and rates. Applications for the new academic year are available beginning April 20 and can be submitted directly from the website with a Yale NetID.

The Yale Housing Office also manages the Off Campus Living listing service (http://offcampusliving.yale.edu; 203.436.9756), which is the exclusive Yale service for providing off-campus rental and sales listings from New Haven landlords. This secure system allows members of the Yale community to search rental listings, review landlord/property ratings, and search for a roommate in the New Haven area. On-campus housing is limited, and members of the community should consider off-campus options. Yale University discourages the use of Craigslist and other third-party nonsecure websites for off-campus housing searches.

The Yale Housing Office is located in Helen Hadley Hall (HHH) at 420 Temple Street and is open from 9 a.m. to 4 p.m., Monday through Friday; 203.432.2167.

RESOURCES ON SEXUAL MISCONDUCT

Yale University is committed to maintaining and strengthening an educational, working, and living environment founded on mutual respect. Sexual misconduct is antithetical to the standards and ideals of our community, and it is a violation of Yale policy and the disciplinary regulations of Yale College and the graduate and professional schools.

Sexual misconduct incorporates a range of behaviors including sexual assault, sexual harassment, intimate partner violence, stalking, voyeurism, and any other conduct of a sexual nature that is nonconsensual, or has the purpose or effect of threatening, intimidating, or coercing a person. Violations of Yale’s Policy on Teacher-Student Consensual Relations also constitute sexual misconduct. Sexual activity requires affirmative consent, which is defined as positive, unambiguous, and voluntary agreement to engage in specific sexual activity throughout a sexual encounter.

Yale aims to eradicate sexual misconduct through education, training, clear policies, and serious consequences for violations of these policies. In addition to being subject to University disciplinary action, many forms of sexual misconduct are prohibited by Connecticut and federal law and may lead to civil liability or criminal prosecution. Yale provides a range of services and resources for victims of sexual misconduct. Information on options for reporting an incident, accommodations and other supportive measures, and policies and definitions may be found at https://smr.yale.edu.
SHARE: Information, Advocacy, and Support

55 Lock Street, Lower Level
Appointments and drop-in hours: 9 a.m.–5 p.m., M–F
24/7 hotline: 203.432.2000
https://sharecenter.yale.edu

SHARE, the Sexual Harassment and Assault Response and Education Center, has trained counselors available 24/7 via direct hotline, as well as for drop-in hours during regular business hours. SHARE is available to members of the Yale community who wish to discuss any current or past experience of sexual misconduct involving themselves or someone they care about. SHARE services are confidential and can be anonymous if desired. SHARE can provide professional help with medical and health issues (including accompanying individuals to the hospital or the police), as well as ongoing counseling and support. SHARE works closely with the University-Wide Committee on Sexual Misconduct, the Title IX coordinators, the Yale Police Department, and other campus resources and can provide assistance with initiating a formal or informal complaint.

If you wish to make use of SHARE’s services, you can call the SHARE number (203.432.2000) at any time for a phone consultation or to set up an in-person appointment. You may also drop in on weekdays during regular business hours. Some legal and medical options are time-sensitive, so if you have experienced an assault, we encourage you to call SHARE and/or the Yale Police as soon as possible. Counselors can talk with you over the telephone or meet you in person at Acute Care in the Yale Health Center or at the Yale New Haven Emergency Room. If it is not an acute situation and you would like to contact the SHARE staff during regular business hours, you can contact Jennifer Czincz, the director of SHARE (203.432.0310, jennifer.czincz@yale.edu), Anna Seidner (203.436.8217, anna.seidner@yale.edu), Cristy Cantu (203.432.2610, cristina.cantu@yale.edu), or Freda Grant (freda.grant@yale.edu).

Title IX Coordinators

203.432.6854
Office hours: 9 a.m.–5 p.m., M–F
https://smr.yale.edu

Title IX of the Education Amendments of 1972 protects people from sex discrimination in educational programs and activities at institutions that receive federal financial assistance. Sex discrimination includes sexual harassment, sexual assault, and other forms of sexual misconduct. The University is committed to providing an environment free from discrimination on the basis of sex or gender.

Yale College, the Graduate School of Arts and Sciences, and the professional schools have each designated a deputy Title IX coordinator, who works closely with the University Title IX Office and University Title IX Coordinator, Elizabeth Conklin. Coordinators respond to and address specific complaints, provide information on and coordinate with the available resources, track and monitor incidents to identify patterns or systemic issues, deliver prevention and educational programming, and address issues relating to gender-based discrimination and sexual misconduct within their respective
schools. Coordinators are knowledgeable about, and will provide information on, all options for complaint resolution, and can initiate institutional action when necessary. Discussions with a Title IX coordinator are confidential. In the case of imminent threat to an individual or the community, the coordinator may need to consult with other administrators or take action in the interest of safety. The coordinators also work closely with the SHARE Center, the University-Wide Committee on Sexual Misconduct, and the Yale Police Department.

University-Wide Committee on Sexual Misconduct
203.432.4449
Office hours: 9 a.m.–5 p.m., M–F
https://uwc.yale.edu

The University-Wide Committee on Sexual Misconduct (UWC) is an internal disciplinary board for complaints of sexual misconduct available to students, faculty, and staff across the University, as described in the committee’s procedures. The UWC provides an accessible, representative, and trained body to fairly and expeditiously address formal complaints of sexual misconduct. UWC members can answer inquiries about procedures and the University sexual misconduct policy. The UWC is comprised of faculty, senior administrators, and graduate and professional students drawn from throughout the University. UWC members are trained in the protocols for maintaining confidentiality and observe strict confidentiality with respect to all information they receive about a case.

Yale Police Department
101 Ashmun Street
24/7 hotline: 203.432.4400
https://your.yale.edu/community/public-safety/yale-police-department

The Yale Police Department (YPD) operates 24/7 and is comprised of highly trained, professional officers. The YPD can provide information on available victims’ assistance services and also has the capacity to perform full criminal investigations. If you wish to speak with Sergeant Kristina Reech, the Sensitive Crimes & Support coordinator, she can be reached at 203.432.9547 during business hours or via email at kristina.reech@yale.edu. Informational sessions are available with the Sensitive Crimes & Support coordinator to discuss safety planning, available options, etc. The YPD works closely with the New Haven State’s Attorney, the SHARE Center, the University’s Title IX coordinators, and various other departments within the University. Talking to the YPD does not commit you to submitting evidence or pressing charges; with few exceptions, all decisions about how to proceed are up to you.

OFFICE OF INTERNATIONAL STUDENTS AND SCHOLARS

The Office of International Students and Scholars (OISS) coordinates services and support for Yale’s nearly 6,000 international students, faculty, staff, and their dependents. OISS assists international students and scholars with issues related to employment,
immigration, personal and cultural adjustment, and serves as a source of general information about living at Yale and in New Haven. As Yale University’s representative for immigration concerns, OISS helps students and scholars obtain and maintain legal nonimmigrant status in the United States.

OISS programs, like daily English conversation groups, the Understanding America series, DEIB workshops, bus trips, and social events, provide an opportunity to meet members of Yale’s international community and become acquainted with the many resources of Yale University and New Haven. Spouses and partners of Yale students and scholars will want to get involved with the International Spouses and Partners at Yale (ISPY) community, which organizes a variety of programs and events.

The OISS website (http://oiss.yale.edu) provides useful information to students and scholars prior to and upon arrival in New Haven, as well as throughout their stay at Yale. International students, scholars, and their families and partners can connect with OISS and the Yale international community virtually through Yale Connect, Facebook, and Instagram.

OISS is a welcoming venue for students and scholars who want to check their email, grab a cup of coffee, and meet up with a friend or colleague. Open until 9 p.m. on weekdays during the academic year, the center—located at 421 Temple Street, across the street from Helen Hadley Hall—also provides meeting space for student groups and a venue for events organized by both student groups and University departments. For more information about reserving space at OISS, call 203.432.2305.
Resources for Students

OFFICE OF ACADEMIC AFFAIRS

55 Hillhouse Avenue, Jackson.registrar@yale.edu
Lorenzo Caliendo, Deputy Dean
David Simon, Assistant Dean for Graduate Education
Jana Baslikova, Associate Director of Academic Services & Registrar

The Office of Academic Affairs is responsible for academic and curricular programs and works collaboratively with the dean, the faculty, teaching fellows, and students to address academic concerns and craft appropriate policies and procedures for the School. The Registrar’s Office is part of the Office of Academic Affairs and handles academic needs of students.

OFFICE OF THE REGISTRAR

55 Hillhouse Avenue, Jackson.registrar@yale.edu
Jana Baslikova, Associate Director of Academic Services & Registrar
Taylor Spadacenta, Assistant Registrar

The registrar’s office prepares course schedules, enrolls, and registers students, maintains student records and monitors academic progress. The following can be obtained from the registrar’s office:

• Proof of student status.
• Information on degree requirements and the registration process.
• Transcripts. Copies of transcripts must be requested from the registrar’s office. The transcript request form is available on the Jackson School of Global Affairs website. Two business days should be allowed for the processing of requests. There is no charge for an official transcript. By law, the registrar may only release Jackson School of Global Affairs transcripts. Prior transcripts and recommendations included in a student’s application to the Jackson School must be obtained from their original source.
• Nondisclosure of personal information forms.
• Assignment of faculty advisers.
• Course proposals and scheduling.
• Faculty grade submission.
• Clearance for graduation.

OFFICE OF STUDENT AFFAIRS

55 Hillhouse Avenue, 203.436.5265
Lily Sutton, Assistant Dean for Student Affairs

The Office of Student Affairs offers services and provides resources designed to enhance student life at the Jackson School of Global Affairs. The assistant dean has primary responsibility for the student experience, represents the interests of all students to the faculty, and participates in student affairs policy decisions for the School. The Office
of Student Affairs also coordinates orientation, matriculation, Commencement, and other student programs, and serves as the administrative liaison with Jackson School student organizations. The goal of the office is to ensure that every Jackson student is productively engaged in nonacademic aspects of school life.

**CAREER DEVELOPMENT OFFICE**

55 Hillhouse Avenue, 203.436.5208
Elizabeth Gill, Assistant Dean for Career Development

The Jackson School Career Development Office assists students in all phases of developing, managing, and implementing career plans and strategies.

**Policies and Guidelines of the Career Development Office (CDO)**

The Yale Jackson School of Global Affairs Career Development Office provides resources and support throughout the internship and full-time job search processes. Students are expected to take responsibility for their job searches and to represent the School well by acting professionally in all interactions. Professional conduct conveys the shared values of our community and benefits all students.

The CDO advises students on a wide range of career development issues, included but not limited to, career exploration and self-assessment, resume and cover letter creation, interview preparation, the search process, and negotiation and networking skills. CDO resources are primarily for M.P.P. and undergraduate Global Affairs majors. M.A.S. students are mid-career professionals who are well established in their field and not expected to require assistance from the CDO.

**CDO Coaching Appointments**

Coaching appointments can be made online; information on how to make an appointment will be shared with students during orientation with reminders sent throughout the year. Students who need to cancel an appointment should do so as far in advance as possible.

**CDO Programming**

The CDO offers in-person and virtual professional development programs throughout the year. Information about these will be shared and updated regularly. For those sessions that require an RSVP please promptly cancel your reservation if your plans change so another student may attend in your place.

**Career Trips**

The CDO sponsors and organizes career trips to Washington, D.C. and New York City to help introduce students to a broad array of global affairs opportunities in a variety of sectors.
**Professional Interactions at Jackson**

Students will interact with alumni, employers, and other professionals throughout their experience at Jackson. Whether in an educational or recruiting context, students are expected to represent themselves and the School well by conducting themselves professionally. Professional conduct includes only attending events to which students in their program were invited, coming prepared, asking relevant and appropriate questions during Q&A sessions, and appropriately managing attendance (“no showing”, arriving late, leaving early, etc., are examples of poor professional conduct.) All expectations apply to both in-person and virtual engagements.

**M.P.P. Summer Requirement**

M.P.P. Students are required to use the summer between their first and second year to pursue a professional experience that aligns with their academic and professional goals. Joint-degree students must complete the internship after their first Jackson year. To meet this requirement, students must complete an internship or research project that is policy related and relevant to the global affairs M.P.P. degree lasting a minimum of eight weeks, preferably ten to twelve. The experience must be at least thirty-five hours per week. On-campus jobs, including research assistant positions, will not be approved.

Students who choose to do independent summer research must explain in their proposal why conducting the proposed research project is important for their professional trajectory.

All proposals for summer experiences are submitted to the CDO and reviewed by a Jackson committee for approval. If approved, the School registrar will officially enroll students in GLBL 7000 over the summer.

Students are required to submit a survey about their summer experience by September 15 to the CDO to complete this graduation requirement.

If the summer experience cannot be completed due to extenuating circumstances, a request for a waiver must be made through the assistant dean for career development.

**Funding for the Summer Requirement**

Jackson offers fellowships of up to $6,000 for budgetary needs to support the summer requirement. Funds are intended as a boost for unfunded or under-funded experiences. The funds may only be used for the summer experience following the student’s first year at Jackson. The application for funding involves submitting a proposal to Jackson’s Career Development Office. You will also need to submit a letter from the organization where you will intern that indicates how much compensation you will be receiving and what cost, if any, will be reimbursed for your summer work. Applications are accepted on a rolling basis starting in January of the spring term and ending in early May. To receive funding before the end of the term, students are encouraged to secure their experience by April 1. While applications will be accepted until early May, students will likely not receive their funding before leaving campus if their proposals are received after April 1.

Please note that funds are meant to offset the cost for either a domestic or international summer opportunity but may not cover all expenses. If a student’s internship is funded and/or if they receive a fellowship from another source, then their Jackson award may be reduced accordingly.
OFFICE OF ALUMNI AFFAIRS

55 Hillhouse Avenue, 203.432.5965, JacksonAlumni@yale.edu
Katie Bussiere, Director of Alumni Affairs

The Office of Alumni Affairs strengthens institutional relationships and develops programs that sustain an active alumni network. The office is responsible for a series of annual events and activities that serve to build a sense of community and connectedness to both the School and its future alumni. For example, past events have included alumni receptions in Washington, D.C., New York City, London, and other cities.

CULTURAL, RELIGIOUS, AND ATHLETIC RESOURCES

Keep up to date about campus news and events by subscribing to the Yale Today and/or Yale Best of the Week e-newsletters (https://news.yale.edu/subscribe-enewsletter), which feature stories, videos, and photos from YaleNews (http://news.yale.edu) and other campus websites. Also visit the Yale Calendar of Events (http://calendar.yale.edu) and the University’s Facebook, Twitter, Instagram, LinkedIn, and YouTube channels.

The Yale Peabody Museum of Natural History, founded in 1866, houses more than fourteen million specimens and objects in ten curatorial divisions: Anthropology, Botany, Entomology, History of Science and Technology, Invertebrate Paleontology, Invertebrate Zoology, Mineralogy and Meteoritics, Paleobotany, Vertebrate Paleontology, and Vertebrate Zoology. The renowned collections continue to enrich teaching and learning, and inform groundbreaking new research. The Museum's galleries are currently under renovation and will reopen in 2024 to display thousands of objects, including the first Brontosaurus, Stegosaurus, and Triceratops specimens ever discovered.

The Yale University Art Gallery was founded in 1832 as an art museum for Yale and the community. Today it is one of the largest museums in the country, holding nearly 300,000 objects and welcoming visitors from around the world. The museum’s encyclopedic collection can engage every interest. Galleries showcase artworks from ancient times to the present, including vessels from Tang-dynasty China, early Italian paintings, textiles from Borneo, treasures of American art, masks from Western Africa, and more. Spanning one and a half city blocks, the museum features more than 4,000 works on display, multiple classrooms, a rooftop terrace, a sculpture garden, and dramatic views of New Haven and the Yale campus. The gallery’s mission is to encourage an understanding of art and its role in society through direct engagement with original works of art. Programs include exhibition tours, lectures, and performances, all free and open to the public. For more information, please visit https://artgallery.yale.edu.

The Yale Center for British Art is a museum that houses the largest collection of British art outside the United Kingdom, encompassing works in a range of media from the fifteenth century to the present. It offers a vibrant program of exhibitions and events both in person and online. Opened to the public in 1977, the YCBA’s core collection and landmark building—designed by architect Louis I. Kahn—were a gift to Yale University from the collector and philanthropist Paul Mellon, '29. For more information, visit britishart.yale.edu.
There are more than eighty endowed lecture series held at Yale each year on subjects ranging from anatomy to theology, and including virtually all disciplines.

More than five hundred musical events take place at the University during the academic year. In addition to degree recitals by graduate students, the School of Music presents the Ellington Jazz Series, Faculty Artist Series, Horowitz Piano Series, New Music New Haven, Oneppo Chamber Music Series, and Yale in New York, as well as performances by the Yale Opera, Yale Philharmonia, Yale Choral Artists, and various YSM ensembles, along with concerts at the Morris Steinert Collection of Musical Instruments. The Institute of Sacred Music presents Great Organ Music at Yale, the Yale Camerata, the Yale Schola Cantorum, and many other special events. The Norfolk Chamber Music Festival/Yale Summer School of Music presents a six-week Chamber Music Session, along with the New Music Workshop and the Chamber Choir and Choral Conducting Workshop. Many of these concerts stream live on the School’s website (https://music.yale.edu). Undergraduate organizations include the Yale Bands, Yale Glee Club, Yale Symphony Orchestra, and numerous other singing and instrumental groups. The Department of Music sponsors the Yale Collegium, Yale Baroque Opera Project, productions of new music and opera, and undergraduate recitals.

For theatergoers, Yale and New Haven offer a wide range of dramatic productions at such venues as the University Theatre, Yale Repertory Theatre, Yale Cabaret, Yale Residential College Theaters, Off Broadway Theater, Iseman Theater, Whitney Humanities Center, Collective Consciousness Theatre, A Broken Umbrella Theatre, Elm Shakespeare Company, International Festival of Arts and Ideas, Long Wharf Theatre, and Shubert Performing Arts Center.

The religious and spiritual resources of the University serve all students, faculty, and staff of all faiths. These resources are coordinated and/or supported through the Chaplaincy (located on the lower level of Bingham Hall on Old Campus); the University Church in Yale in Battell Chapel, an open and affirming ecumenical Christian congregation; and Yale Religious Ministries, the on-campus association of professionals representing numerous faith traditions. This association includes the Saint Thomas More Catholic Chapel and Center at Yale and the Joseph Slifka Center for Jewish Life at Yale, and it supports Buddhist, Hindu, and Muslim life professionals; several Protestant denominational and nondenominational ministries; and student religious groups such as the Baha’i Association, the Yale Hindu Student Council, the Muslim Student Association, the Sikh Student Association, and many others. Hours for the Chaplain’s Office during the academic term are Monday through Thursday from 8:30 a.m. to 11 p.m., Friday from 8:30 a.m. to 5 p.m., and Sunday evenings from 5 to 11. Additional information is available at http://chaplain.yale.edu.

The Payne Whitney Gymnasium is one of the most elaborate and extensive indoor athletic facilities in the world. This complex includes the 3,100-seat John J. Lee Amphitheater, the site for varsity basketball, volleyball, and gymnastics competitions; the Robert J.H. Kiphuth Exhibition Pool; the Brady Squash Center, a world-class facility with fifteen international-style courts; the Adrian C. Israel Fitness Center, a state-of-the-art exercise and weight-training complex; the Brooks-Dwyer Varsity Strength and Conditioning Center; the Colonel William K. Lanman, Jr. Center, a 30,000-square-foot space for recreational/intramural play and varsity team practice; the Greenberg Brothers
Track, an eighth-mile indoor jogging track; the David Paterson Golf Technology Center; and other rooms devoted to fencing, gymnastics, rowing, wrestling, martial arts, general exercise, and dance. Numerous group exercise classes in dance, martial arts, zumba, yoga, pilates, spinning, HIIT and cardio, and sport skills are offered throughout the year. Yale undergraduates and graduate and professional school students may use the gym at no charge throughout the year. Memberships at reasonable fees are available for faculty, employees, postdocs, visiting associates, alumni, and members of the New Haven community. Memberships are also available for spouses and children of all members. Additional information is available at https://sportsandrecreation.yale.edu.

During the year, various recreational opportunities are available at the David S. Ingalls Rink, the McNay Family Sailing Center in Branford, the Yale Outdoor Education Center (OEC) in East Lyme, the Yale Tennis Complex, and the Yale Golf Course. All members of the Yale community and their guests may participate at each of these venues for a modest fee. Up-to-date information on programs, hours, and specific costs is available at https://sportsandrecreation.yale.edu.

Approximately fifty club sports are offered at Yale, organized by the Office of Club Sports and Outdoor Education. Most of the teams are for undergraduates, but a few are available to graduate and professional school students. Yale students, faculty, staff, and alumni may use the OEC, which consists of 1,500 acres surrounding a mile-long lake in East Lyme, Connecticut. The facility includes overnight cabins and campsites, a pavilion and dining hall available for group rental, and a waterfront area with supervised swimming, rowboats, canoes, stand-up paddleboards, and kayaks. Adjacent to the lake, a shaded picnic grove and gazebo are available to visitors. In a more remote area of the facility, hiking trails loop the north end of the property; trail maps and directions are available on-site at the field office. The OEC is open from the third week in June through Labor Day. For more information, including mid-September weekend availability, call 203.432.2492 or visit https://sportsandrecreation.yale.edu.

Throughout the year, Yale graduate and professional school students have the opportunity to participate in numerous intramural sports activities, including volleyball, soccer, and softball in the fall; basketball and volleyball in the winter; softball, soccer, ultimate, and volleyball in the spring; and softball in the summer. With few exceptions, all academic-year graduate-professional student sports activities are scheduled on weekends, and most sports activities are open to competitive, recreational, and coeducational teams. More information is available from the Intramurals Office in Payne Whitney Gymnasium, 203.432.2487, or online at https://sportsandrecreation.yale.edu.

YALE UNIVERSITY LIBRARY

Yale University Library comprises collections, spaces, technology, and people. The collections contain fifteen million print and electronic volumes in more than a dozen libraries and locations, including Sterling Memorial Library, Beinecke Rare Book and Manuscript Library, Marx Science and Social Science Library, and the Anne T. and Robert M. Bass Library. Yale Library’s resources also include extensive licensed e-resources and extraordinary special collections that represent the diversity of the human experience in forms ranging from ancient papyri to early printed books, rare film and music recordings, and a
growing body of born-digital materials. More than five hundred staff members facilitate teaching, research, and practice with deep subject-area knowledge as well as expertise in digital humanities, geographic information systems, and the use and management of research data. Yale Library’s preservation and conservation specialists develop and apply leading-edge technology to maintain collections, providing critical support for increased access to collections, an expanding exhibition program, and Yale’s emphasis on teaching with primary sources. For more information, visit https://library.yale.edu.
Appendix: Thesis Guidelines

The major assignment during the fall term is the submission of a prospectus to the thesis adviser. The prospectus is designed to help ensure that a student and faculty adviser are explicit about the thesis topic, to promote continued progress during the fall term, and to increase the likelihood of a final high-quality product. Students are strongly encouraged to work on the thesis throughout the second year. These prospectus guidelines, therefore, are a minimum requirement. Furthermore, given a student’s ongoing work, the prospectus is considered more of a “progress report.”

A first draft of the prospectus is due to the thesis adviser no later than November 2, with the full prospectus due to the thesis adviser and the School registrar on December 1. The prospectus should be completed using the guidelines below. In addition, it is expected that students include proper citations and references when preparing the prospectus. More information regarding proper citing of sources can be found on the Yale Poorvu Center for Teaching and Learning website at https://poorvucenter.yale.edu/writing-using-sources. Please note that the preferred thesis for students is one that is in the style and length of a publishable, peer-reviewed paper.

Please refer to Yale Poorvu Center Publishing website https://poorvucenter.yale.edu/writing/graduate/writing-through-graduate-school/publishing for publication guidelines.

TIMELINE FOR M.P.P. THESIS

**October 30** Thesis adviser form due to registrar (signed by thesis adviser and assistant dean for graduate education).

**November 2** First draft of thesis prospectus due to primary thesis adviser.

**December 1** Final draft of thesis prospectus due to primary thesis adviser and School registrar (students will not be allowed to register for thesis credits the following term if the prospectus is not submitted).

**Mid-March** First draft of thesis due to primary thesis adviser.

**April 15** Final thesis to be submitted to thesis adviser for final grading.

**May 1** Deadline for final grades to be submitted to registrar from thesis adviser for student submission of electronic copy.

THESIS PROSPECTUS FORMAT

Title
Primary Thesis Adviser

1. *Specific Aims and Hypotheses.* Clear and succinct statement of the thesis objectives, including primary study hypothesis.

2. *Background and Rationale.* Brief overview of existing literature (3–5 paragraphs is sufficient for the prospectus). Why is this project important? How is it different from existing research?
3. **Methods.** Brief overview of the basic study methodology.

4. **Competencies.** Select three to five Jackson School core and competencies that you will master as part of this culminating experience. Briefly describe how this thesis will address these competencies.

**THESIS ORGANIZATION**

The thesis must be assembled as follows:

1. **Title Page** (Title cannot exceed 60 characters)
2. **A one-page, double-spaced abstract**
   - The abstract is the final statement on the problem addressed by the thesis and should incorporate the most mature insights attained.
3. **Acknowledgments** (if desired)
4. **Table of Contents**
5. **List of Tables** (if any)
6. **List of Figures** (if any)
7. **Body of the Thesis**
   - The following organization of the body of the thesis is recommended:
     a. **Introduction**
        i. Brief statement of specific objectives of the investigation
        ii. Statement of general problem addressed by the thesis
        iii. Elaboration of objectives and/or hypotheses, including the relation to the general problem
     b. **Review of Studies Relevant to the Problem**
     c. **Research Design**
        i. Specific research design and method
        ii. Reasons for selection
        iii. Method of analysis, including justification for statistical tests
     d. **Presentation and Analysis of Findings**
        - This is the major portion of the thesis. The significance of the findings should be discussed and an assessment made of their applicability to current theory and practice. Analysis and discussion may be presented together in one chapter or separately in two chapters.
     e. **Conclusions**
        i. Summary of findings
        ii. Limitations of findings and other limitations of the study
        iii. Conclusions based on the study
        iv. Relevant recommendations for program development or further research
8. **References**
   - A list of the pertinent references consulted in preparing the thesis should be included. Any standard and consistent format for presentation of footnotes and references is acceptable.
9. **Appendix or Appendices**
SATISFACTORY THESIS PROGRESS

Students not making satisfactory progress toward their thesis in the fall, may withdraw on or before December 1 without a note on their transcript.

THESIS PENDING (DELAYED SUBMISSION OF THESIS)

Students who have not received final grade from primary adviser and submitted their thesis electronically by May 1 will be considered thesis pending and will receive a grade of Incomplete for the thesis. Students who are thesis pending will not be allowed to participate in the Commencement ceremony and will not receive the M.P.P. degree until all requirements are complete.

Students who are thesis pending are given one year to complete the thesis without penalty. During this time, students in thesis pending status must be registered for continuous study each term of the regular academic year until the thesis requirement has been completed (except in the case of an approved leave of absence). Students may not register for regular course work while on continuous study status. Students are permitted to be on continuous study for a maximum of two terms. The fee for continuous study is $750 per term. Students registered for continuous study are not eligible for financial aid.

At the end of the one-year period, the grade of Incomplete will be changed to a grade of F if the thesis has not been submitted. The student will then be required to register for two Global Affairs elective courses earning a final grade of H in each, to satisfy the HP average requirement, and pay a continuous registration fee.

PUBLICATION GUIDELINES

The thesis may be published independently. It also may be published under joint or multiple authorship if advisers or agency personnel have contributed significantly to the final product. Significance is interpreted to mean contributions such as expanding theory or techniques of analysis in ways beyond the usual role of an adviser. Supplying the database does not entitle the supplier to authorship. When students work on sponsored research, the thesis adviser and the student should sign a letter of agreement on funding, use of database or materials, deadlines, publication rights, and authorship before work on the thesis begins.

PUBLICATION PROCESS FOR THE M.P.P. THESIS

The following are publication guidelines that are intended to avoid miscommunication and differential expectations of authorship between students and thesis advisers.

1. When the prospectus is submitted, thesis advisers will discuss publication with students, including desire for publication, description of the publication process, possible venues, authors, determination of authorship order, and logistics.

2. If the thesis adviser provides the data, then the adviser should create a written publication/data sharing agreement. The agreement should be signed by both the adviser and the student before work on the thesis is started. The agreement should include at the minimum:
3. If the thesis adviser does not provide the data, then the thesis adviser should work with the student to draft a similar document to be completed and signed by the student and the primary data source. Guidelines should be consistent with any established policies of the primary data source. This should be done whether or not the thesis adviser is included as an author on the publication.

4. In general, if the manuscript has not been submitted for publication within a year after graduation, the thesis adviser will have the right to prepare the manuscript for publication.
The work of Yale University is carried on in the following schools:

**Yale College** Est. 1701. Courses in humanities, social sciences, natural sciences, mathematical and computer sciences, and engineering. Bachelor of Arts (B.A.), Bachelor of Science (B.S.).

For additional information, please visit https://admissions.yale.edu, email student.questions@yale.edu, or call 203.432.9300. Postal correspondence should be directed to Office of Undergraduate Admissions, Yale University, PO Box 208234, New Haven CT 06520-8234.

**Graduate School of Arts and Sciences** Est. 1847. Courses for college graduates. Master of Arts (M.A.), Master of Science (M.S.), Master of Philosophy (M.Phil.), Doctor of Philosophy (Ph.D.).

For additional information, please visit https://gsas.yale.edu, email graduate.admissions@yale.edu, or call the Office of Graduate Admissions at 203.432.2771. Postal correspondence should be directed to Office of Graduate Admissions, Yale Graduate School of Arts and Sciences, PO Box 208236, New Haven CT 06520-8236.

**School of Medicine** Est. 1810. Courses for college graduates and students who have completed requisite training in approved institutions. Doctor of Medicine (M.D.). Post-graduate study in the basic sciences and clinical subjects. Five-year combined program leading to Doctor of Medicine and Master of Health Science (M.D./M.H.S.). Combined program with the Graduate School of Arts and Sciences leading to Doctor of Medicine and Doctor of Philosophy (M.D./Ph.D.). Master of Medical Science (M.M.Sc.) from the Physician Associate Program and the Physician Assistant Online Program.

For additional information, please visit https://medicine.yale.edu/edu, email medical.admissions@yale.edu, or call the Office of Admissions at 203.785.2643. Postal correspondence should be directed to Office of Admissions, Yale School of Medicine, 367 Cedar Street, New Haven CT 06510.

**Divinity School** Est. 1822. Courses for college graduates. Master of Divinity (M.Div.), Master of Arts in Religion (M.A.R.). Individuals with an M.Div. degree may apply for the program leading to the degree of Master of Sacred Theology (S.T.M.).

For additional information, please visit https://divinity.yale.edu, email div.admissions@yale.edu, or call the Admissions Office at 203.432.5360. Postal correspondence should be directed to Admissions Office, Yale Divinity School, 409 Prospect Street, New Haven CT 06511.

**Law School** Est. 1824. Courses for college graduates. Juris Doctor (J.D.). For additional information, please visit https://law.yale.edu, email admissions.law@yale.edu, or call the Admissions Office at 203.432.4995. Postal correspondence should be directed to Admissions Office, Yale Law School, PO Box 208215, New Haven CT 06520-8215.

Graduate Programs: Master of Laws (LL.M.), Doctor of the Science of Law (J.S.D.), Master of Studies in Law (M.S.L.). Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences. For additional information, please visit https://law.yale.edu, email gradpro.law@yale.edu, or call the Graduate Programs Office at
203.432.1696. Postal correspondence should be directed to Graduate Programs, Yale Law School, PO Box 208215, New Haven CT 06520-8215.

School of Engineering & Applied Science  Est. 1852. Courses for college graduates. Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences.

For additional information, please visit https://seas.yale.edu, email grad.engineering@yale.edu, or call 203.432.4252. Postal correspondence should be directed to Office of Graduate Studies, Yale School of Engineering & Applied Science, PO Box 208292, New Haven CT 06520-8292.

School of Art  Est. 1869. Professional courses for college and art school graduates. Master of Fine Arts (M.F.A.).

For additional information, please visit http://art.yale.edu, email artschool.info@yale.edu, or call the Office of Academic Administration at 203.432.2600. Postal correspondence should be directed to Office of Academic Administration, Yale School of Art, PO Box 208339, New Haven CT 06520-8339.

For additional information, please visit https://music.yale.edu, email gradmusic.admissions@yale.edu, or call the Office of Admissions at 203.432.4155. Postal correspondence should be directed to Yale School of Music, PO Box 208246, New Haven CT 06520-8246.

School of the Environment  Est. 1900. Courses for college graduates. Master of Forestry (M.F.), Master of Forest Science (M.F.S.), Master of Environmental Science (M.E.Sc.), Master of Environmental Management (M.E.M.). Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences.

For additional information, please visit https://environment.yale.edu, email admissions.yse@yale.edu, or call the Office of Admissions at 800.825.0330. Postal correspondence should be directed to Office of Admissions, Yale School of the Environment, 300 Prospect Street, New Haven CT 06511.

School of Public Health  Est. 1915. Courses for college graduates. Master of Public Health (M.P.H.), Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences.

For additional information, please visit https://publichealth.yale.edu, email yshp.admissions@yale.edu, or call the Admissions Office at 203.785.2844.

School of Architecture  Est. 1916. Courses for college graduates. Professional and post-professional degree: Master of Architecture (M.Arch.); nonprofessional degree: Master of Environmental Design (M.E.D.). Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences.

For additional information, please visit https://www.architecture.yale.edu, email gradarch.admissions@yale.edu, or call 203.432.2296. Postal correspondence should be directed to the Yale School of Architecture, PO Box 208242, New Haven CT 06520-8242.
School of Nursing  Est. 1923. Courses for college graduates. Master of Science in Nursing (M.S.N.), Post Master’s Certificate (P.M.C.), Doctor of Nursing Practice (D.N.P.). Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences.

For additional information, please visit https://nursing.yale.edu or call 203.785.2389. Postal correspondence should be directed to Yale School of Nursing, Yale University West Campus, PO Box 27399, West Haven CT 06516-0972.

For additional information, please visit https://drama.yale.edu, email dgsd.admissions@yale.edu, or call the Registrar/Admissions Office at 203.432.1507. Postal correspondence should be directed to David Geffen School of Drama at Yale University, PO Box 208325, New Haven CT 06520-8325.

School of Management  Est. 1976. Courses for college graduates. Master of Business Administration (M.B.A.), Master of Advanced Management (M.A.M.), Master of Management Studies (M.M.S.). Doctor of Philosophy (Ph.D.) awarded by the Graduate School of Arts and Sciences.

For additional information, please visit https://som.yale.edu. Postal correspondence should be directed to Yale School of Management, PO Box 208200, New Haven CT 06520-8200.

Jackson School of Global Affairs  Est. 2022. Courses for college graduates. Master in Public Policy (M.P.P.) and Master of Advanced Study (M.A.S.).

For additional information, please visit https://jackson.yale.edu, email jackson.admissions@yale.edu, or call 203.432.6253.
Continued on next page
The University is committed to affirmative action under law in employment of women, minority group members, individuals with disabilities, and protected veterans. Additionally, in accordance with Yale’s Policy Against Discrimination and Harassment, and as delineated by federal and Connecticut law, Yale does not discriminate in admissions, educational programs, or employment against any individual on account of that individual’s sex; sexual orientation; gender identity or expression; race; color; national or ethnic origin; religion; age; disability; or status as a special disabled veteran, veteran of the Vietnam era, or other covered veteran.

Inquiries concerning these policies may be referred to the Office of Institutional Equity and Access, 203.432.0849; equity@yale.edu. For additional information, please visit https://oiea.yale.edu.

Title IX of the Education Amendments of 1972 protects people from sex discrimination in educational programs and activities at institutions that receive federal financial assistance. Questions regarding Title IX may be referred to the university’s Title IX coordinator, Elizabeth Conklin, at 203.432.6854 or at titleix@yale.edu, or to the U.S. Department of Education, Office for Civil Rights, 8th Floor, Five Post Office Square, Boston MA 02109-3921; tel. 617.289.0111, TDD 800.877.8339, or ocr.boston@ed.gov. For additional information, including information on Yale’s sexual misconduct policies and a list of resources available to Yale community members with concerns about sexual misconduct, please visit https://smr.yale.edu.

In accordance with federal and state law, the University maintains information on security policies and procedures and prepares an annual campus security and fire safety report containing three years’ worth of campus crime statistics and security policy statements, fire safety information, and a description of where students, faculty, and staff should go to report crimes. The fire safety section of the annual report contains information on current fire safety practices and any fires that occurred within on-campus student housing facilities. Upon request to the Yale Police Department at 203.432.4400, the University will provide this information to any applicant for admission, or to prospective students and employees. The report is also posted on Yale’s Public Safety website; please visit http://your.yale.edu/community/public-safety.

In accordance with federal law, the University prepares an annual report on participation rates, financial support, and other information regarding men’s and women’s intercollegiate athletic programs. Upon request to the Director of Athletics, PO Box 208216, New Haven CT 06520-8216, 203.432.1414, the University will provide its annual report to any student or prospective student. The Equity in Athletics Disclosure Act (EADA) report is also available online at http://ope.ed.gov/athletics.
